Receiving culturally relevant, trauma-informed services for crime victims is an important step in every victim’s healing process. According to the National Crime Victimization Survey (NCVS), only 11 percent of victims of serious violence who report their victimization ever access help from a victim services agency. Increasing the number of crime victims connected to the supports necessary to aid their healing is paramount. This connection is especially important for groups that experience high rates of victimization. In recent years, a rise in gun violence has disproportionally impacted underserved communities, particularly communities of color, as noted in the Centers for Disease Control and Prevention’s Fatal Injury Reports. OVC remains committed to supporting efforts to diversify and expand existing strategies for providing victim assistance and establishing vital linkages to other fields that touch the lives of those impacted by crime—particularly those victims less likely to access services through the traditional support infrastructure.

In an effort to expand the use of hospitals and other medical facilities as an entry point to increase support for victims of crime, improve their outcomes, and reduce the risk for repeat victimization, this solicitation will fund up to three demonstration sites to expand existing hospital-based programs that support crime victims. Additionally, the solicitation will fund one applicant to provide comprehensive technical assistance (TA) to the demonstration sites and develop TA resources and tools to support this effort.

Overview
The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

The Office for Victims of Crime (OVC) is committed to enhancing the nation’s capacity to assist crime victims and provide leadership in changing attitudes, policies, and practices to promote justice and healing for all victims of crime. This solicitation seeks to improve linkages between the victim services field and hospitals and other medical facilities that increase support for crime victims, improve victim outcomes, and reduce chances of further victimization.

Statutory Authority
34 U.S.C. § 20103(c)(1)(A)

Specific Information
Receiving culturally relevant, trauma-informed services for crime victims is an important step in every victim’s healing process. According to the National Crime Victimization Survey (NCVS), only 11 percent of victims of serious violence who report their victimization ever access help from a victim services agency. Increasing the number of crime victims connected to the supports necessary to aid their healing is paramount. This connection is especially important for groups that experience high rates of victimization. In recent years, a rise in gun violence has disproportionately impacted underserved communities, particularly communities of color, as noted in the Centers for Disease Control and Prevention’s Fatal Injury Reports. OVC remains committed to supporting efforts to diversify and expand existing strategies for providing victim assistance and establishing vital linkages to other fields that touch the lives of those impacted by crime—particularly those victims less likely to access services through the traditional support infrastructure.

In an effort to expand the use of hospitals and other medical facilities as an entry point to increase support for victims of crime, improve their outcomes, and reduce the risk for repeat victimization, this solicitation will fund up to three demonstration sites to expand existing hospital-based programs that support crime victims. Additionally, the solicitation will fund one applicant to provide comprehensive technical assistance (TA) to the demonstration sites and develop TA resources and tools to support this effort.

Goals, Objectives, Deliverables, and Timeline
The goal of this solicitation is to support evidence-based models, practices, and policies that improve partnerships between the victim services field and hospitals and other medical facilities to increase support for crime victims. The objective of these partnerships is to provide comprehensive, coordinated, trauma-informed services and support that address the full range of victim needs.

Category 1: Demonstration Sites
This solicitation will fund up to three demonstration sites that operate hospital-based/affiliated programs to support crime victims using evidence-based models and practices with victim-centered approaches.

The demonstration sites will develop plans to provide comprehensive, victim-centered services that aid in the survivor’s physical and emotional recovery. OVC encourages a focus on responding to community violence and victims of gun violence, but potential sites may consider using hospital-based/affiliated services and other related approaches to support multiple types of victimization in their proposed projects. Demonstration project applicants should include detailed descriptions of the specific approach they will follow to reach the specified type of victims and explain how the approach will be used to improve victim outcomes. Applicants should also include a detailed explanation of how their program partners will assist in meeting the complex needs of the victims served.

All services provided as part of this program must: respect the decision-making independence of crime victims; support victim self-sufficiency; and promote victims’ feelings of increased safety and well-being. Collaborations with victim-serving organizations will be an important element of this model, as programs should also incorporate plans to follow up with discharged victims and their families to assist with their long-term recovery. Successful applicants will include one or more hospitals or medical facilities within the area, departments of health, or relevant victim-serving organizations to implement a model most appropriate in that jurisdiction and most capable of filling an unmet need.

Project activities could include the following:

- Creation of trauma-informed services and support for survivors identified by program advocates, case managers, and other staff when entering hospital emergency departments and similar medical settings (i.e., urgent care facilities, clinics, etc.).
- Funding positions and training for hospital and program staff on use of screening tools and other methods used to identify victimization and trauma.
- Conducting training for medical staff on use of victim-centered, trauma-informed approaches when working with survivors in hospital settings.
- Funding partnerships to expand the network of support services available to survivors in the surrounding community that are easily accessible for survivors.
- Use of multidisciplinary teams linked to hospitals to identify and address service gaps and barriers that improve participating agency responses to victims and create a seamless network of services for survivors.

The activities listed above are solely included as examples. Applicants are not limited to submitting proposals for these types of activities. Rather, applicants are encouraged to consider a variety of solutions that apply approaches to improve outcomes for crime victims.

Applicants will be required to collaborate with a local research partner to support their work on the project and should budget at least $25,000 per year to support the local evaluation of the project. Priority will be given to projects engaged in research-practitioner partnerships that will have a rigorous evaluation component that will contribute to filling gaps in knowledge and bridge-building across these fields.

The local research entity must be a partner in the proposal and a Memorandum of Understanding (MOU) between the applicant organization and the research entity must be included in the application. The role of the local research entity is to assist the site with identifying and documenting the use of evidence-based practices. The local research partner will help the site develop a logic model for the project to provide a graphical depiction of the logical relationships between the resources, activities, outputs, and outcomes of the program. The research partner must be independent and not connected, directly or indirectly, to the applicant agency outside of the agreement for the implementation evaluation. The MOU developed must explicitly allow the local research entity access to data that is important to the successful completion of the demonstration project. The proposal and budget must also clearly reflect the partnership of the researcher. Applicants are encouraged to explore a range of possible research partners.

In support of the implementation evaluation, the local research partner will work with the site, TA provider, and OVC to refine criteria and plans for implementation policies and procedures. The local research entity will also be responsible for working with the site and its partners to determine appropriate data collection procedures and ensure the project is able to obtain the data necessary to complete the implementation/evaluation.

The participating sites will work along with a TA provider to establish sustainability plans and information-sharing agreements to elevate vital health-related data on a jurisdiction-level, as well as engage in cross-analysis of victimization and victim services information, and where possible/appropriate, other health-related data not often utilized by the victim assistance field. These efforts will yield vital learning and best practices around aligning currently disparate data collection efforts, and overall improving the ability of these fields to talk to one another.

Sites funded through this solicitation will engage in the following activities to meet the program goals and objectives:
Deliverables for Category 1
Deliverables include:
- Submission of quarterly financial reports and semiannual progress reports in compliance with DOJ grant requirements.
- Participation in conferences and meetings hosted by the TA provider, OVC, and other partners, as requested by OVC.
- A final report that describes how the grantee implemented its project, including identification of project partners, areas of success, and lessons learned.

OVC will enter into a cooperative agreement with successful applicants to ensure OVC’s involvement in key decisions and direction of the project. All funded applications, along with their project partners, will be required to work cooperatively with the designated TA provider. All funded applicants will also be expected to cooperate in a national evaluation of their projects should OVC choose to launch one in future years.

Category 2: Technical Assistance Project
This solicitation will be used to select one entity to provide comprehensive TA to the demonstration sites and develop TA tools and resources to support the initiative.

The successful applicant will be expected to deliver an array of TA resources and guidance that support the demonstration sites and the overall initiative. The comprehensive TA resources and support could include, but is not limited to: (1) providing diverse subject matter expertise and innovative assistance to the demonstration sites to ensure they develop solid plans to support crime victims, achieve their individual goals and objectives, and sustain their efforts; (2) working with sites to engage partners and strengthen their project plans; (3) identifying and providing TA that is comprehensive, coordinated, appropriate, trauma-informed, and data-driven to reach and assist all victims; and (4) facilitating peer learning exchanges among the sites and other organizations engaged in similar work to promote problem-solving and innovation through the exchange of ideas and information.

The successful applicant will be expected to coordinate with other OVC-funded TA providers, such as OVC’s Training and Technical Assistance Center and other entities working with related projects and partners. Protocols for coordinating with these organizations must be established to ensure consistent messaging around relevant topic areas, maximize effectiveness of TA, and avoid duplication of efforts.

Deliverables for Category 2
Deliverables include:
- An array of TA resources and guidance that support the demonstration sites and the overall initiative that is comprehensive, coordinated, appropriate, trauma-informed, and data-driven to reach and assist all victims.
- Provision of diverse subject-matter expertise and innovative assistance to the demonstration sites to ensure they develop solid plans to support crime victims, achieve their individual goals and objectives, and sustain their efforts.
- Working with sites to engage partners and strengthen their project plans.
- Facilitating peer learning exchanges among the sites and other organizations engaged in similar work to promote problem-solving and innovation through the exchange of ideas and information.
- Participation in conferences and meetings hosted by OVC and other project partners as determined by OVC.
- Participation in regular calls with the OVC grant monitor and submission of monthly reports tracking TA activities.
- Submission of quarterly financial reports and semiannual progress reports in compliance with DOJ grant requirements.
- A final report summarizing the overall initiative, including a summary of the TA project, success stories, and lessons learned.

OVC will enter into a cooperative agreement with the successful demonstration project and technical assistance applicants to ensure involvement in key decisions and direction of the project. In furtherance of the goals and objectives described above, OVC’s role in coordination will include the following:

- Reviewing and approving major plans, including changes to such plans, and key decisions pertaining to project operations.
- Reviewing and approving major project-generated documents.
- Providing guidance on significant project plans and participating in project-related training events or meetings (OVC will make final decision on the occurrence of any events, and review/approve meeting agendas).
- Selecting the participating demonstration project sites and TA provider.

The Goals, Objectives, and Deliverables are directly related to the performance measures that demonstrate the results of the work completed, as discussed under Application and Submission Information.

Evidence-Based Programs or Practices
OJP strongly emphasizes the use of data and evidence in policymaking and program development in criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the OJP Grant Application Resource Guide.

Information Regarding Potential Evaluation of Programs and Activities
OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. For additional information, see the OJP Grant Application Resource Guide section entitled “Information Regarding Potential Evaluation of Programs and Activities.”

Priority Areas
The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community. In FY 2021, OJP will give priority consideration in award decisions to applications that demonstrate ways in which their projects will advance one or more of these areas.

To receive priority consideration for advancing one or more of the Department’s priorities, the applicant must provide a sufficient narrative explanation as an attachment, that specifies how the project will advance the promotion of civil rights, access to justice, support to crime victims, protecting the public from crime and evolving threats, or...
building trust between law enforcement and the community.

In addition, OJP will give priority consideration, if applicable, to applicants that demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent-poverty counties.

To receive priority consideration under the poverty priority, the applicant must provide information to demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent-poverty counties. For purposes of this priority consideration, the term “high-poverty area” means any census tract with a poverty rate of at least 20 percent as measured by the 2013–2017 5-year data series available from the American Community Survey of the Census Bureau (applicants may search by census tract at [https://www.census.gov/acs/www/data/data-tables-and-tools/narrative-profiles/2017]) and the term “persistent poverty counties” means any county that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990 and 2000 decennial censuses and the most recent Small Area Income and Poverty Estimates (applicants may search by county at [https://www.census.gov/data/tables/time-series/dec/census-poverty.html] and at [https://www.census.gov/programs-surveys/saipe.html]).

Priority consideration is one of many factors that OJP considers in making funding decisions and is not a guarantee of an award.

Application and Submission Information
The following application elements MUST be included in the application submission for an application to meet the basic minimum requirements (BMR) to advance to peer review and receive consideration for funding:

- Proposal Abstract,
- Proposal Narrative, and
- Budget Worksheet and Budget Narrative (web-based form).

See the “Application Elements and Formatting Instructions” section of the OJP Grant Application Resource Guide for information on what happens to an application that does not contain all the specified elements or that is nonresponsive to the scope of the solicitation.

Information to Complete the Application for Federal Assistance (SF-424)
The SF-424 will be submitted in Grants.gov. The SF-424 is a required standard form used as a cover sheet for submission of pre-applications, applications, and related information. See the OJP Grant Application Resource Guide for additional information on completing the SF-424.

In Section F of the SF-424, please include the name and contact information of the individual who will complete application materials in JustGrants. JustGrants will use this information (email address) to assign the application to this user in JustGrants.

Intergovernmental Review: This solicitation (“funding opportunity”) is not subject to Executive Order 12372. (In completing the SF-424, an applicant is to answer question 19 by selecting the response that the “Program is not covered by E.O. 12372.”)

Standard Applicant Information (JustGrants 424 and General Agency Information)
The Standard Applicant Information section of the JustGrants application is pre-populated with the SF-424 data submitted in Grants.gov. Applicants will need to review the Standard Applicant Information in JustGrants and make edits as needed. Within this section, applicants will need to: add zip codes for areas affected by the project; confirm their Authorized Representative; and verify the organization’s legal name and address.

Proposal Abstract
A proposal abstract (no more than 400 words) summarizing the proposed project including primary activities, products and deliverables, the service area, and who will benefit from the proposed project, will be completed in the JustGrants Web-based form.

Proposal Narrative
The proposal narrative should be submitted as an attachment in JustGrants. The attached document should be double-spaced, using a standard 12-point Times New Roman font; have no less than 1-inch margins; and should not exceed 25 pages. Pages should be numbered and submitted as an attachment. If the proposal narrative fails to comply with these length restrictions, OVC may negatively consider such noncompliance in peer review and in final award decisions.

The following sections must be included as part of the proposal narrative:

a. Description of the Issue
The problem statement must establish strong rationale for the project and provide a clear statement of how funding will support the project’s value to the victim field by meeting the stated goals. Applicants should use data to provide evidence that the need for the effort exists and demonstrate the scope and size of the need. The problem statement must also make a convincing case that the project addresses a gap in existing resources and does not duplicate existing resources. If the applicant organization is receiving funding from any other sources to provide services and support for crime victims, or TA to support such projects, then the strategy must demonstrate how the OVC funding would leverage the other funding to enhance the response to victims.

b. Project Design and Implementation
The project design and implementation plan must describe the project strategy and discuss how the strategy will address the identified problems in support of the goals and objectives. This section should detail how the project will link and leverage resources from program partners that address the complex, long-term issues of survivors and their families such as substance abuse, health issues, joblessness, educational opportunities, and stable housing that may prevent victims from achieving stability, safety, and overall well-being. The applicant’s strategy or project design must include the identification of a lead agency and a main point of contact within the lead agency to coordinate the effort. It must also contain a description of project phases, tasks, activities, staff responsibilities, interim deliverables, and final products. The project design and implementation section must include a time-task plan that delineates organizational responsibility for the activities to be completed and a schedule for the completion of the activities and the submission of finished products. In preparing the time-task plan, Gantt chart, or schedule, applicants should make certain that all project activities occur within the proposed project period. Applicants must include a logic model that graphically illustrates how the project’s problems, goals, objectives, and design are interrelated, leading to anticipated outputs, performance measures, and outcomes. Sample logic models are available at https://ojjdp.ojp.gov/funding/grant-performance-measurement/data-collection-methods-and-logic-models. The applicant must submit the logic model as a separate attachment, as stipulated in “Additional Attachments.”

c. Capabilities and Competencies
Applicants must demonstrate they have the expertise and organizational capacity to undertake an initiative successfully that involves significant collaboration with other agencies supporting the effort. Applicants must address the following items in this section:

i. Explain the roles and responsibilities of the lead agency along with a plan for communicating with the multidisciplinary team, other agencies, and community partners. This discussion must describe the project’s organizational structure and operations. A copy of the applicant’s organizational chart must be submitted.

ii. Identify a coordinator within the lead agency responsible for the operation and expansion of program efforts. This individual must be empowered to lead a multidisciplinary effort within a well-designed, staff supported organizational structure that includes capacity to oversee programmatic and financial responsibilities.
Applicants can also visit OJP’s performance measurement page at www.ojp.gov/performance for an overview of performance measurement activities at OJP.

Applicants will be required to submit performance data as part of the reporting requirements under an award.

Note: Applicants are provided, if selected for award.

An applicant that proposes to use award funds through this solicitation to conduct project evaluations must follow the guidance under “Note on Project Evaluations” in the OJP Grant Application Resource Guide.

b. Other Review Criteria/Factors
Other important considerations for OVC include geographic diversity, strategic priorities (specifically including, but not limited to, those mentioned above relating to priority areas), available funding, past performance, and the extent to which the Budget Worksheet and Budget Narrative (web-based form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process
Applications submitted under this solicitation that meet basic minimum requirements, will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria above.
OJP screens applications to ensure they meet the basic minimum requirements prior to conducting peer review. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

• The application must be submitted by an eligible type of applicant.
• The application must request funding within programmatic funding constraints (if applicable).
• The application must be responsive to the scope of the solicitation.
• The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed $250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant, may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal funding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.
Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may take into account not only peer review ratings and OVC recommendations, but also other factors as indicated in this section.
