Program Description

Overview

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

Under this program, OVC seeks applications to support the development and/or enhancement of multidisciplinary teams (MDT) and to strengthen the capacity of "enhanced MDTs" to better identify and respond to cases of elder abuse and more comprehensively serve and support victims of financial exploitation. Through these enhanced MDTs (E-MTD), OVC hopes to improve case outcomes while minimizing additional trauma and restoring safety and security to older adult victims of crime, and to potentially hold more offenders accountable.

Statutory Authority

34 U.S.C. § 20103(c)(1)(A).

Specific Information

This program will develop elder abuse "case review" MDTs, which bring together a group of professionals to discuss elder abuse cases with the goals of facilitating healing through the provision of services (healthcare, legal, mental health, housing, etc.). This approach has the potential to offer a robust, yet victim-centered, criminal justice response.

Case review E-MDTs are defined as a group of professionals (composed of representatives from three or more disciplines who work collaboratively), bound by a common purpose. The team has a shared goal and shared definition of the problem they are addressing, and is characterized by share decision making, partnership, and interdependency.

This program will grow the development and/or enhancement of up to 10 more MDTs (at the tribal, local, or state levels, with special focus on financial exploitation) to strengthen the capacity of E-MDTs to better identify and respond to cases of elder financial exploitation and abuse, and to more comprehensively serve and support older victims of crime. In collaboration with the Office on Violence Against Women (OVW), DOJ's Elder Justice Initiative (EJI), and the Consumer Financial Protection Bureau's (CFPB) Office of Financial Protection for Older Americans, OVC will ensure these 10 new E-MDTs are uniquely focused on financial exploitation. These new special-emphasis E-MDTs will have access to online TTA through the existing [National Elder MDT Training and Technical Assistance Center](#), as well as applicable TA efforts under OVW's Abuse in Later Life program, CFPB's Network Program resources, and [MDT resources available from EJI](#). The new special-emphasis E-MDTs and current grantees are expected to work with the existing TA provider and offer timely feedback on training and technical assistance received. Through these 10 new special-emphasis E-MDTs, as well as the existing 13 tribal and non-tribal E-MDTs (funded in FY 2019), OVC hopes to leverage existing federal TTA resources and improve case outcomes while minimizing additional trauma and restoring safety and security to older adult victims of financial exploitation and abuse, and to potentially hold more offenders accountable.

Goals, Objectives, Deliverables, and Timeline

Goals

The objective of this solicitation is the development and/or enhancement of support for elder abuse MDTs that can better identify and respond to older adults who experience financial exploitation and other forms of elder abuse.

Objectives

To fund up to 10 E-MDTs at the tribal, local, or state levels, including existing and new teams, with special emphasis on better recognizing elder financial exploitation. These teams should include forensic accountants, neuropsychologists, medical personnel, and/or other appropriate professionals (to possibly evaluate the victim's cognitive abilities and capacity), so that case-related efforts more comprehensively consider and address the needs of older victims of financial exploitation and other forms of elder abuse. These victim-focused E-MDTs are to be designed to improve the case review process and associated systems. In addition to system coordination, these E-MDTs should seek to better understand victims' priorities and needs, which must include determining effective responses to financial exploitation.

Deliverables

E-MDTs are characterized by expanded membership, including forensic accountants, neuropsychologists, medical personnel, and other appropriate professionals, so that case-related efforts more comprehensively incorporate the needs of older victims of financial exploitation and other forms of elder abuse.

Applicants may propose to either develop new MDTs or enhance existing teams. These victim-focused E-MDTs should be

designed to improve the case review process and associated systems. In addition to system coordination, these E-MDTs should seek to better understand victims' priorities and needs, which must include addressing effective responses to financial exploitation.

Successful applicants will clearly demonstrate the need to develop an MDT or to enhance a current MDT's efforts, with at least the following elements included:

- A dedicated E-MDT coordinator or identified point of contact to coordinate the activities of the E-MDT, including—
 - providing or arranging for team training and cross-training;
- identifying service gaps and helping resolve systems problems;
- conducting team meetings, events, and stakeholder engagements;
- seeking and screening cases that meet in-take criteria and consulting with team members to resolve difficult abuse cases;
- reviewing and resolving coordination issues;
- assistance in establishing and enforcing appropriate team policies and procedures;
- coordinating direct service efforts, coaching team members on case presentation skills and debriefing the team after meetings to improve future presentations;
- serving as a connection between participating agencies, organizations, and team members to facilitate communication to help move cases forward;
- accurately documenting participation and case planning action items while managing confidentiality and discoverability requirements;
- developing best practices, policies, training guides, and professional education tools;
- updating team members regarding new services, programs, and legislation;
- providing a forum for learning more about the strategies, resources, and approaches used by other successful E-MDTs; and,
- assisting in grant-reporting requirements;
- Activities that support a coordinated and comprehensive response to crime victims' needs by direct service providers.
- Participation in statewide or other task forces, work groups, and committees to develop protocols and interagency agreements.
- Recruitment of members and representatives from a broader array of professions (as needed) to examine the comprehensive service needs and intervention that will best serve the needs of the victim (including financial exploitation) and determine additional experts that might be consulted to improve outcomes for older adult victims.
- Needs assessments to ensure case-related efforts are more comprehensively incorporating the involvement of forensic accountants and neuropsychologists, etc., to address financial exploitation.
- Utilization of TA, to be offered (as needed) by OVC's National Elder Abuse MDT TTA Center to improve the capacity of team members and functioning of the E-MDT to provide medical and forensic evaluation, therapeutic intervention, victim support and advocacy, case review, and case tracking.

Applicants must demonstrate the ability to develop new MDTs or expand existing MDTs that—

- use a paid E-MDT coordinator position to manage the team;
- understand victims' priorities and needs, including addressing effective responses to financial exploitation and other forms of elder abuse;
- provide services to older adults who have been abused (physically, sexually, maltreated, neglected, and/or financially exploited);
- enhance the MDT's response through the addition of neuropsychologists or similar professionals to address cognitive abilities and capacity of older adults, and forensic accountants to address the possibility of financial exploitation;
- address issues of confidentiality that enable sharing of information to facilitate group decision making;
- reduce barriers to program advancement and improve the quality of services;
- participate in group dynamics training and cross-training to ensure that all members have a voice;
- conduct regular internal process reviews of policies and procedures to improve the case review process;
- engage in routine TTA, as necessary; and
- if an existing MDT, demonstrate the commitment of MDT member agencies and organizations' management through a formal partnership (e.g., an MOU), and if proposing a new MDT, through a draft MOU of letters of

support with the goal of a formal MOU if selected for funding.

The Goals, Objectives, and Deliverables are directly related to the performance measures that demonstrate the results of the work completed, as discussed under [Application and Submission Information](#).

Evidence-Based Programs or Practices

OJP strongly emphasizes the use of data and evidence in policymaking and program development in criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the [OJP Grant Application Resource Guide](#).

Information Regarding Potential Evaluation of Programs and Activities

OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. For additional information, see the [OJP Grant Application Resource Guide](#) section entitled "Information Regarding Potential Evaluation of Programs and Activities."

OJP Priority Areas

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community. In FY 2021, OJP will give priority consideration in award decisions to applications that demonstrate ways in which their projects will advance one or more of these areas.

To receive priority consideration for advancing one or more of the Department's priorities, the applicant must provide a sufficient narrative explanation as an attachment, that specifies how the project will advance the promotion of civil rights, access to justice, support to crime victims, protecting the public from crime and evolving threats, or building trust between law enforcement and the community.

In addition, OJP will give priority consideration, if applicable, to applicants that demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent-poverty counties.

To receive priority consideration under the poverty priority, the applicant must provide information to demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent poverty counties. For purposes of this priority consideration, the term "high-poverty area" means any census tract with a poverty rate of at least 20 percent as measured by the 2013–2017 5-year data series available from the American Community Survey of the Census Bureau (applicants may search by census tract at <https://www.census.gov/acs/www/data/data-tables-and-tools/narrative-profiles/2017/>) and the term "persistent poverty counties" means any county that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990 and 2000 decennial censuses and the most recent Small Area Income and Poverty Estimates (applicants may search by county at <https://www.census.gov/data/tables/time-series/dec/census-poverty.html> and at <https://www.census.gov/programs-surveys/saipe.html>).

Priority consideration is one of many factors that OJP considers in making funding decisions and is not a guarantee of an award.

Application Review Information

Review Criteria

Applications that meet basic minimum requirements will be evaluated by peer reviewers. Applications will be evaluated on how the proposed project/program addresses the following criteria:

1. Statement of the Problem/Description of the Issue (15%) - evaluate the applicant's understanding of the program/issue to be addressed.
2. Project Design and Implementation (30%) - evaluate the adequacy of the proposal, including the goals, objectives, timelines, milestones, and deliverables.
3. Capabilities and Competencies (30%) - evaluate administrative and technical capacity of the applicant to successfully accomplish the goals and objectives.
4. Plan for Collecting the Data Required for this Solicitation's Performance Measures (15%) - evaluate the applicant's understanding of the performance data reporting requirements and the plan for collecting the required data.
5. Budget (10%) - evaluate for completeness, cost effectiveness, and allowability (e.g., reasonable, allocable, and necessary for project activities).

b. Other Review

Other important considerations for OVC include geographic diversity, strategic priorities, (specifically including, but not limited to, those mentioned above relating to priority areas), available funding, past performance, and the extent to which the Budget Worksheet and Budget Narrative (web-based form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process

Applications submitted under this solicitation that meet basic minimum requirements, will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting peer review. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant, may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may take into account not only peer review ratings and OVC recommendations, but also other factors as indicated in this section.
