2. training to correctional officers on how to respond to and support juvenile victims; and
3. technical assistance to correctional institutions and victim service providers to help ensure the delivery of services to detained juvenile victims.

Goal

The project goal is to:

• to increase access to outside support services for juvenile survivors of sexual abuse in detention
Project Site Objectives

1. Partner with juvenile detention centers, jails, and/or correction agencies that do not already have formalized partnerships with victim service providers.

2. Work meaningfully with community advocates to build victim services programming for juvenile detention facility residents and strengthen sexual safety. See specifics in the solicitation.

3. Establish safe access to technology-based victim services that appeal to youth, such as email, chat, tablets, and web-based services.

4. Explore the provision of innovative and creative programming and non-traditional service delivery to help victim residents heal from sexual abuse and other trauma.
Project Site Objectives (cont.)

5. Implement services for residents to address trauma broadly, to promote healing from abuses such as trafficking, child sexual abuse, sexual violence, hate crimes, domestic or dating violence, removal from the home, and gun violence.

6. Ensure that residents are educated in an age-appropriate, accessible, and continuously available manner about their rights and available services.

7. Explore additional ways in which advocates can contribute to sexual safety within the facility. See examples in the solicitation.

8. Provide technical assistance.

9. Ensure that residents also receive education about healthy relationships, boundaries, communication, other life skills, and understanding trauma.

10. Prepare a plan for program sustainability.
Project Site Deliverables

• A needs assessment.
• A strategic plan to work with the partner facility.
• An MOU between the victim service organization and the facility, memorializing the partnership and the details of how the services will be provided to juvenile survivors.
• A report of lessons learned, documented in coordination with the technical assistance provider, to be disseminated throughout the field.
1. **1st quarter**, assist each site with conducting a needs assessment to determine gaps in the establishment of PREA-compliant victim services requirements for residents, as part of initial project planning.  
2. **1st year**, work with the sites to help build the relationships with the victim advocacy programs and assist with MOU development.  
3. Provide support addressing the gaps identified in the needs assessment.  
4. Provide targeted technical assistance for youth detention officials on implementing effective strategies for staff screening, training, and supervision.  
5. Collect and share tools, best practices, and guides related to supporting incarcerated youth who have been victims of crime; identify gaps in the available resources; and create new resources based on the gap analysis.  
6. Following TA guidelines, provide ongoing guidance and support.  
7. Work with each site to develop a sustainability plan that will support the long-term success of the partnership beyond the grant period.
A final report regarding lessons learned, building capacity, and a strategic planning guide to be used across the country by other detention centers to implement support services for their victims.
