Program Description

This program will provide funding to support an entity that will (1) competitively select and fund subawards to support direct services to children and youth who are crime victims impacted by the Nation’s drug crisis, and (2) provide technical assistance to the selected subawardees.

For this program, the following definitions apply:

- Drug or substance use refers to a person taking a drug, either prescribed or not, in a way other than it is intended to be used.
- Polyvictims are victims or survivors of more than one type of victimization (such as sexual abuse, physical abuse, neglect, bullying, and exposure to family violence) and those who have experienced multiple victimizations over a lifetime (Finkelhor, D., Turner, H., Ormrod, R., Hamby, S., & Kracke, K. (2009). Children’s Exposure to Violence: A Comprehensive National Survey. U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention). Children and youth who are crime victims impacted by the Nation’s drug crisis may be polyvictims, and therefore have complex service needs including a potential need for support services to their families. This program is intended to address the complex needs of children, youth, and their families impacted by the Nation’s drug crisis.
Specific Information

Under this program, OVC expects to make a 3-year cooperative agreement award of up to $2 million for a lead entity and technical assistance (TA) provider to both develop and manage a subaward program and provide TA to subawardees. In partnership with OVC, the lead entity will competitively select up to 14 subawardee sites (service providers who specialize in substance use) across the country to implement 1 to 2 year field-generated projects ranging between $50,000 and $100,000. The subawardees will work toward creating replicable victim services, including multidisciplinary community response approaches, for youth impacted by drug use. The subaward projects will also be required to address the needs of families and caregivers. The subaward program will make a priority those projects planned for communities that demonstrate high levels of crime related to substance use, and for geographic areas where there are gaps in services for victims. The TA provider will support the project sites in the early identification of child and youth victims, as well as promote the establishment and expansion of sustainable community partnerships.

Up to $750,000 of the award may be used to provide overall project management, technical assistance, and oversight of subawardees.
The ultimate goal of this program is to expand, enhance, and formalize the service response to children, youth, and families who have been harmed by exposure to drug use.
The objectives of this program are to—
1. ascertain new ways of identifying children and youth impacted by substance use who need victim services;
2. increase partnerships and the availability of, and access to, direct services and multidisciplinary response strategies for children, youth, and families who have been harmed through exposure to drug use, including those experiencing polyvictimization;
3. enhance knowledge and build the capacity of service providers to serve this population more effectively; and
4. broadly share innovative crime victim response models that can be replicated in other communities and jurisdictions to address this population.
Deliverables

1. creation and dissemination of a solicitation to competitively select, in close consultation with OVC, up to 14 direct service providers for subawards;
2. execution of subawards;
3. provision of survivor-informed TA, created specifically for the subawards;
4. provision of program oversight and management;
5. development and execution of a monitoring plan for overseeing the work of the subawardees;
6. facilitation of calls, webinars, or other meetings between and among sites to facilitate discussion and information exchange;
7. provision of peer-to-peer consultation and networking opportunities among the sites to promote problem solving and exchange resources;

8. provision of technical assistance and capacity building to subawardees to increase their knowledge of effective responses to drug use-related crime victimization, including polyvictimization, trauma-informed services, resources for victims of crime, state compensation programs, victims’ rights, legal remedies, and other tailored assistance identified by subawardees;

9. analysis of performance data from subawardees to determine if the programs are meeting the stated goals and objectives; and

10. development of a guide about promising approaches to addressing drug use-related crime, including polyvictimization, based on the work of the program’s subawardees.
