

**OFFICE FOR VICTIMS OF CRIME
HUMAN TRAFFICKING VICTIM SERVICE PROVIDER
PERFORMANCE MEASURES**

The following pages contain the performance measures and instructions for the Office for Victims of Crime’s (OVC’s) human trafficking non-formula grant programs. These awards focus on direct service grantees.

PROGRAM GOAL AND OBJECTIVES

OVC works to enhance the Nation’s capacity to assist crime victims and to provide leadership in changing attitudes, policies, and practices in ways that will promote justice and healing for all victims.

In this capacity, OVC strives to uphold the intent of the Trafficking Victims Protection Act of 2000 and its subsequent authorizations to ensure that all trafficking victims—regardless of immigration status, gender, or form of trafficking—receive support to access the services they need. OVC grant funding supports efforts to develop, expand, and strengthen programs for victims of human trafficking.

Structure of Questionnaire

This questionnaire is divided into five (5) topic areas plus grant activity and semiannual reporting questions. Each grant will be assigned specific topic areas, depending on its purpose. See the solicitation map to locate the topic areas assigned to your award.

The current questionnaire aligns to reporting in the Performance Measurement Tool (PMT). Performance measure numbers are sequential to support reporting. As of October 2022, performance measure reporting will take place directly into the PMT.

NOTE: You must provide a response for each question in the assigned question banks. The performance measures contain short instructions on how to report.

ROLES AND RESPONSIBILITIES FOR COMPLETION

OVC expects that agencies assign a point of contact to gather and report performance data. This includes work with subgrantees. Agency points of contact should work with other staff as needed to gather the required information, so they can report on it when it is due.

REPORTING PERIODS

Performance data are reported quarterly. Prior to October 2022, data was recorded in a separate Excel spreadsheet and uploaded to JustGrants with semiannual narrative reports. As of October 2022, data is entered directly in the PMT. In January and July of each calendar year and during award closeout, grantees will also answer the Semiannual/Final Reporting questions directly into JustGrants.

If you have any questions about the performance measures, email the OVC Performance Measurement Tool Helpdesk at ovcpmt@usdoj.gov or call toll free at 844-884-2503.

The table below outlines the reporting periods and submission deadlines.

GRANT ACTIVITY

Is this the last reporting period during which this award will have data to report?

Instruction: For example, the award end date has passed, or no additional grant project activity will take place. If you select "Yes," the PMT will create a cumulative final report and no future reporting periods will be required.

Yes or No

1. Was there grant activity during the reporting period?

Instruction: Grant activity occurs when the grantee has obligated, expended, or drawn down grant funds to implement objectives proposed in the OVC-approved grant application. An answer of "Yes" indicates the program is operational and should remain the same until the grant closes out.

Yes or No

1A. If No, explain why there was no grant activity during the reporting period.

TRAFFICKING POPULATION

APPENDIX B

The definitions below are based on federal legislation (unless otherwise noted), which provides guidance to states by identifying a minimum set of acts or behaviors to define crimes. The Office for Victims of Crime (OVC) understands that state statutes may vary. Please interpret your state code within the definitions provided to report requested data.

Examples of specific crimes are provided for each category¹ In these cases, the victimization category should be reported, not the specific crime type. For example, if an adult was the victim of battery under state law, this would be reported as Adult Physical Assault, not as Other: Battery.

VICTIMIZATION TYPES:

Adult Physical Assault (Includes Aggravated and Simple Assault)

Simple Assault: Assaults and attempted assaults where no weapon was used, or no serious or aggravated injury resulted to the victim. Intimidation, coercion, and hazing are included.

Aggravated Assault: An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

Adult Physical Assault—Aggravated Assault: An unlawful attack by one person upon another, inflicting severe or aggravated bodily injury. This type of assault usually is accompanied with the use of a weapon or by means likely to produce death or great bodily harm.

The following are examples of specific crimes and should be reported as **adult physical assault** (either simple assault or aggravated assault):

¹ OVC acknowledges the work of the Center for Victim Research in identifying these specific crimes, behaviors, and activities and aligning them to appropriate victimization types listed in the Performance Measurement Tool. Visit their website for more information: <https://victimresearch.org/>

These negative acts may be physical or verbal in nature—for example, hitting or kicking, teasing or taunting—or they may involve indirect actions such as manipulating friendships or purposely excluding other children from activities.
