

X (formerly Twitter)

X, formerly known as Twitter, is an information-sharing network where each post on general accounts is limited to 280 characters. If you set up a new account, choose a handle (username) that other users will recognize (often the name or abbreviation of your organization) and an easily identifiable profile picture. To be an active X user, follow other individuals and organizations, follow their followers, reshare their posts and promote them to your audience. Post on your own and be sure to link back to your website or your other social media pages and use images and graphics when possible.

Create longer-form messages by replying to your own posts and creating a “thread.” Maximize your X presence by staying engaged in conversations on subjects that are important to your mission and by quickly responding to other users’ posts and mentions of your organization or causes.

Adding a hashtag groups your post with related posts from other users and is a useful way to become part of a conversation. Make sure to use the most applicable tags, and add #NCVRW2024 to your NCVRW posts.

Five Tips for X

New users of X may have difficulty adhering to a character limit. Use the tips below to make your posts more concise:

- Use numerals (“9”) instead of spelled-out numbers (“nine”).
- Replace “and” with “+,” “&,” or “/” when appropriate.
- Use contractions.
- Substitute long words with shorter synonyms.
- Shorten links or remove “http:” and “https:” from the beginning of links, when possible. You can also consider using a link-shortening tool to make long URLs fit into limited space.
- If you need additional characters or want to share longer-form content, you can “thread” posts together.
