NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**
No significant change in the number of applications received during the reporting period.
2. **The average length of time to process an application for claim eligibility for compensation**
Count days from time of receipt of application to decision. 60

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. When the application is received, we perform intake of the application by entering into our system. Once everything is entered, we print out an Application Received letter (goes to the claimant), as well as letters that we send out to law enforcement and the County Attorney offices requesting police reports, affidavits, complaints, and any documentation that can explain the crime itself and if charges were filed against the offender. We also send a form to law enforcement that we ask them to fill out that details any contributory misconduct made on the victim's behalf. Once all documentation is received from law enforcement, we then contact the victim to have them schedule a telephone interview. Once the interview is complete, we recommend approval or denial, and the claim gets submitted to the Board for their review. The Board meets once a month to review claims, and a week or two after the Board meets, we send out letters to all of the claimants that notifies them of the Board's decision. It is at that time that the decision is entered into the database.

7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**
Kansas used our VOCA Administrative funds to pay the annual performance fee owed to our software company. This software allows us to enter applications accurately and in a timely manner, and the software also tracks the data necessary for OVC PMT Quarterly reporting. We are extremely satisfied with the performances of this software and how accurate the data currently is because of it.

No changes made to laws, initiatives, or policies.
9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**
