NARRATIVE QUESTIONS

1.
Please explain any significant change in the number of applications received during the reporting period.

No change.

2.
The average length of time to process an application for claim eligibility for compensation

Count days from time of receipt of application to decision. 111

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. We get the application in, check the felony history (except for juveniles and victims of sexual assault), enter the name, address, crime, summary, etc. into the CVR software program, request any necessary information that wasn't included or corrections, enter the claims into the system, make the application "Ready For Board," produce an agenda of all of the applications that are ready for the board and supplemental claims that are ready, mail everything to the board members.

3.
Does your state have a victim satisfaction survey?

No

4.
Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.

Less state income available.

5.
Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.

We hired a third person to handle mostly the sexual assault and child sexual abuse cases leaving two of us to handle all of the other crime types.

6.
Please describe any notable activities during the reporting period that improved the process of victim compensation services.

We have worked hard to get our new software system developed to suit our needs.

7.
Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.

NACVCB annual conference for our employees to keep everyone up-to-date on any changes. Printing program material for disbursement to the police departments, sheriff's offices, general public, hospitals, clinics, etc.

8.
Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.

Any application where the victim was incarcerated, on probation or parole during the five-year period prior to the crime would be denied. As of August 1, 2018, that five-year period was lowered to three years. I am sure there will be an increase in approved eligibilities but it is too soon tell exactly how much that increase will be.

9.
Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.

The victim advocates in the district attorneys' offices throughout the state are very familiar with our program and assist many victims in applying for compensation. Our police departments and sheriff's offices also give our brochures to victims and/or their families. We also attend functions such as Night Out Against Violence, etc., to make the public aware of what we do.

10.
Please explain any public outreach efforts to improve awareness of your program.

We send out posters, attend functions regarding crime and violence in the state where we pass out our brochures, we make sure that the funeral homes, medical facilities, mental health providers, etc., know about us so that they can direct victims to us.

11.
Please list any other outcome measure(s) that are reported to the governor, legislature, or other state entity that have not been reported in this submission. Provide the actual measure(s). The data may be reported separately in your progress report.

N/A

12.
Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.
