## NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**  

There were 12,244 new CVC applications received during the FFY19 reporting period compared to 12,293 received FFY87. This is a decrease of less than 1% decrease in new applications received during FFY19 compared to FFY 18. The change in the number of applications received is a continuation of the decline in applications for FFY18 as a direct result of the decreased FFY17 and FFY 18 federal CVC grant awards allocated to Colorado. The FFY17 federal CVC grant award was fully expended within a twelve month period in order to provide rudimentary assistance for CVC compensable losses in those judicial districts with insufficient local collections.
2. **The average length of time to process an application for claim eligibility for compensation**  

Count days from time of receipt of application to decision. 21

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. Explain the responsibilities of your office in processing a claim: Colorado has a decentralized system for the administration of crime victim compensation program activity which includes processing of applications and disbursement of compensation funds. The Office of Victims Programs responsibilities in regard to claim processing involve 1) providing on-going technical assistance requested by local cvc programs; and, 2) routine monitoring of state standards outlining baseline claim processing requirements for local cvc programs. How long does it take to process a VOCA claim? Colorado State Standards for the Administration of Crime Victim Compensation Programs requires all CVC claims to be processed within 45 working days, and no later than 60 days, from receipt of a completed application to the CVC Board s initial eligibility determination. How long does it take to cut a check for a VOCA claim? Local CVC programs disburse CVC funds on a monthly basis, generally after a regularly scheduled claim review meeting. The Colorado State Standards for the Administration of Crime Victim Compensation Programs requires the Judicial District Administrator to issue payments on a victim compensation claim within ten working days of receipt of the signed payment authorizations submitted by a CVC Board.
3. **Does your state have a victim satisfaction survey?**  

No
4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**  

The additional decrease of \$156,000 for the FFY18 Federal CVC Grant award, following the \$500,000 decrease of the same award in FFY17, has significantly impacted CVC funds available for victims in six of twenty-two judicial districts. Four of these judicial districts comprise the major metro Denver area; these four programs have had to implement stringent payment policies for all eligible CVC payment categories. The disbursement of significant additional VOCA Assistance monies in FFY18 through FFY 19 designated for the enhancement and/or expansion of existing victim service agencies throughout the state also continues to increase the number of victim compensation applications for local compensation programs, placing a serious strain on the resources of the CVC programs in the major metro Denver area. The ability of CVC programs to pay for the tangible housing expenses necessary for the safety and economic stability of victims, particularly victims of sexual assault and domestic violence crimes is a demonstrable service gap, as funds are insufficient and/or the documentation required for auditing purposes is challenging for victims to obtain and/or provide.
5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**  

Local Crime Victim Compensation (CVC) programs are encouraged to serve victims of federal crimes and coordinate the delivery of services with federal officials in several ways. CVC administrators coordinate compensation program assistance with local FBI representatives, including victim advocates, when a federal crime takes place in their local judicial district. CVC administrators also coordinate provision of compensation program administrators work with the victim advocates at the U.S. Attorney's Office when crimes are filed for federal prosecution, as well as the child advocate designated by the FBI to assist victims of child trafficking and sexual assault crimes. The CVC administrators with programs located in southeastern Colorado consistently work with tribal victim advocates and prosecutors to provide CVC outreach and assistance for crime victims residing in the two federally recognized Native American tribes residing in those areas.
6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**  

All judicial districts currently receiving federal CVC grant funds meet monthly to exchange information and payment strategies in an ongoing effort to minimize disparity in CVC assistance victims may experience due to the location of crime and limited CVC funds available for allocation. OVP hosted the bi-annual Colorado CVC Conference in May, 2019 to facilitate networking opportunities and training for all twenty two CVC Administrators and sixty six volunteer CVC Board members.
7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**

Colorado's decentralized system for the administration of victim compensation programs provides for a timely response to the immediate, tangible needs of victims in the same communities in which they often reside. Each of the 22 judicial districts throughout the state access the technical assistance, training and support provided by the four Division of Criminal Justice positions which are partially funded with VOCA administrative fund; these four personnel are also integral to conducting statewide VOCA funded program monitoring and reporting. The Office of Programs Manager, Victim Compensation Administrator, Victim Compensation Financial Specialist and Administrative Assistant within the Office for Victims Programs all have a role in the administration of Colorado Crime Victim Compensation financial and programmatic services.

8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**

There were not any laws, initiatives or policy changes in Colorado during FFY19 regarding victim compensation.

9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**

The VOCA Assistance Coordinator and VOCA Compensation Coordinator are housed within the Division of Criminal Justice Office for Victims Programs and collaborate on a regular basis. In an effort to reduce compensation application barriers for victims, all VOCA Assistance grant recipients are required to inform victims of the availability of compensation assistance and local compensation procedures as well as provide assistance to victims in completing compensation application forms, identifying statutory compensable losses and obtaining necessary documentation of compensable losses. One of the greatest advantages of Colorado's decentralized compensation structure is the increased accessibility victims have to compensation program administrators that facilitates the timely response to the tangible needs that result following a crime.

10. **Please explain any public outreach efforts to improve awareness of your program.**

Each summer, the Colorado Organization of Victim Assistance (COVA) sponsors a Victim Services Academy which is attended by over 40 persons. Persons attending the Academy are victim advocates from community based non-profit, prosecution and/or law enforcement based victim service agencies. Each fall, COVA also sponsors a statewide conference which draws over 1,100 diverse attendees. Persons attending the conference include prosecutors, law enforcement sworn personnel, judiciary, tribal representatives and federal justice system professionals. The State CVC Administrator conducts training regarding compensation eligibility, application, fund collections and disbursement as well as general compensation program operating procedures at both the COVA Academy and the conference. Attendees of both the COVA Academy and conference leave with a working knowledge of system-coordination in the delivery of compensation assistance to victims of crime throughout the state. This working knowledge reduces barriers for victims applying to receive compensation by increasing dissemination of accurate information regarding Colorado victim compensation and providing compensation administrator contact information so that training attendees assist victims with direct referrals in their local communities. The training also increases the awareness of persons who may have had little to no previous awareness of compensation assistance in Colorado. Regular training of paid and volunteer personnel in prosecution offices regarding the availability of victim compensation funds is required the state standards governing local compensation programs, as is conducting public education and outreach activities. Each local compensation program has developed thoughtful public education and outreach efforts that are responsive to their communities. These include offering regular trainings to community based non-profit and law enforcement based victim service programs; disseminating victim compensation brochures in English and Spanish to hospitals and medical offices in the community; partnering with Sexual Assault Response Teams to be included in training videos used by medical, law enforcement and mental health agencies.

11. **Please list any other outcome measure(s) that are reported to the governor, legislature, or other state entity that have not been reported in this submission. Provide the actual measure(s). The data may be reported separately in your progress report.**

The Division of Criminal Justice (DCJ) Office for Victims Programs (OVP) puts together the "Colorado Crime Victim Compensation Annual Report" which provides state aggregate and individual judicial district CVC data for the number of victims served and dollar amount of CVC funds paid both per crime and service types during a federal fiscal year time period. This report is provided to members of the Colorado Executive Department and Colorado General Assembly. The FFY 2018 Annual Report, as well as Annual Reporting back to 2014, may be found at the DCJ OVP website at: <http://dcj.ovp.state.co.us/home/victims-compensation>

12. **Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.**

OVP is appreciative of the communication with, and assistance from, the OVC Manager and have no additional comments at this time.
