NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**
No significant change in the number of applications received during the reporting period.
2. **The average length of time to process an application for claim eligibility for compensation**
Count days from time of receipt of application to decision. 60

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. When the application is received, we perform intake of the application by entering into our system. Once everything is entered, we print out an Application Received letter (goes to the claimant), as well as letters that we send out to law enforcement and the County Attorney offices requesting police reports, affidavits, complaints, and any documentation that can explain the crime itself and if charges were filed against the offender. We also send a form to law enforcement that we ask them to fill out that details any contributory misconduct made on the victim's behalf. Once all documentation is received from law enforcement, we then contact the victim to have them schedule a telephone interview. Once the interview is complete, we recommend approval or denial, and the claim gets submitted to the Board for their review. The Board meets once a month to review claims, and a week or two after the Board meets, we send out letters to all of the claimants that notifies them of the Board's decision. It is at that time that the decision is entered into the database.
