## NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**  
There was no significant change in the number of applications received during this reporting period. The program continues to steadily gain more applications and sexual assault forensic examination reimbursements every year.
2. **The average length of time to process an application for claim eligibility for compensation**  
Count days from time of receipt of application to decision. 105  
  
Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. When we receive an application from the claimant, it is entered into our database, and the information is solicited from the appropriate resources such as police departments, medical reports, mental health treatment plans, sexual assault forensic exams, and employment verification. This can take a lot of research and interaction with providers in order to get the necessary information. Once we have supporting documentation, the entire case is reviewed for validity and awards are calculated and submitted to the board. The board meets monthly and will approve or deny the cases, in which case the claimant is notified.
3. **Does your state have a victim satisfaction survey?**  
No
4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**  
Funding for our program comes from assessments on criminal convictions. Our revenues had been falling due to a fall in the crime rate and the decriminalization of certain offenses. We are seeing an increase in the utilization of mental health treatment as well, likely due to the shift in social acceptance of therapy.
5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**  
We provide the same level of service to victims of State crimes and Federal crimes. We work closely with the Victim Services Coordinators for the U.S. Attorney's office on individual cases and training.
6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**  
We monitor for improvements to database functionality. We have offered trainings to the Police Academy, Sexual Assault Forensic Nurses, Victims Witness Advocates, and local allied resource centers in order to educate on how better to extend our services and support to victims.
7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**  
We have used administrative funds for STACAP charges (approved indirect cost ration) only. STACAP charges are mandatory state assessments against draws from funding sources other than the State General Fund. We must pay these charges when we make payments from Federal funds as well as when we make payments from State funds, which are also not State General Funds dollars. The STACAP is currently 2.952%.
8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**  
Maine LD 1550 was approved but has not been signed into effect yet. This statute will add property crimes to the list of crimes for which an application can be made. This would add additional assessments to perpetrators in order to fund this additional part of the program, but it must be self-sustaining and cannot come from funds available to violent crime victims. This would also increase program staff by one additional compensation specialist and would increase the Board from 3 to 5 members, with the additional members being someone experienced in insurance claims and a representative of the public. This will go into effect in 2022.
9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**  
We collaborate with all listed allied professionals, within and without the State and Federal criminal justice systems, on ordering and collecting restitution. We collaborate with these entities on training.
10. **Please explain any public outreach efforts to improve awareness of your program.**  
We have found that direct outreach to the general population does not generate eligible cases. We provide training and support to allied professionals. We have, and continue to, expand the scope of outreach and training to allied professionals.

11. **Please list any other outcome measure(s) that are reported to the governor, legislature, or other state entity that have not been reported in this submission. Provide the actual measure(s). The data may be reported separately in your progress report.**

No other outcome measure exists

12. **Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.**

The federal grant funds available to Maine are a small amount and inhibit the ability of the program to grow due to the increase in applications and utilization of funds. Due to the decriminalization and shift in crimes, Maine has less state funds to use, which means a smaller match from the federal grants, which detrimentally impacts the program's ability to support victims of violent crimes.
