NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**

We have had an increase in the number of applications received during this reporting period, which is most likely due to the significant legislative changes to the Missouri CVC Program that went into effect August 28, 2018; thus improving benefits for victims and claimants filing for compensation. It removed the requirement that applications must be notarized; removed conducting criminal history checks on victims; removed the \$2,500 counseling cap; removed the 48-hour rule for reporting the crime; removed the three-year time limit for submitting additional crime-related bills once a claim has been awarded; removed cooperating with prosecution of the offender (note that victim must still cooperate with law enforcement in the apprehension of the known offender); removed that the victim must have incurred a \$50 out-of-pocket expense or lost two continuous weeks of earnings from gainful employment; and removed that applications must be filed in person or by mail. The statutory change to our Program, coupled with an increase in crime and continued CVC contact with stakeholders such as law enforcement, victim advocates, medical/funeral providers and various other entities that assist victims and their families in seeking financial assistance in the aftermath of a crime has undoubtedly increased the number of applications received this reporting period.

2. **The average length of time to process an application for claim eligibility for compensation**

Count days from time of receipt of application to decision. 111

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. Once an application is received, it is reviewed for completeness. The application is assigned to a caseworker who enters it into our CVC system, which automatically assigns a claim number. The caseworker contacts the victim or claimant in writing if any additional information/documentation is needed to process the claim. In the course of determining eligibility, the caseworker contacts law enforcement for a copy of the police report; conducts a Medicaid check (Medicaid is considered a collateral source and our Program is a payer of last resort); contacts the prosecutor if an alleged offender's name is known (for outcome of the case and determine if restitution was ordered); contacts providers to verify actual out-of-pocket crime-related expenses (medical, funeral, counseling, loss of income and loss of support in death cases). Once the caseworker receives all of the needed information/documentation, they process the claim; then make a recommendation on whether to pay or deny the claim. Management reviews the file and makes the final decision on the claim's eligibility for compensation.

3. **Does your state have a victim satisfaction survey?**

No

4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**

There were no major issues or trends that impacted our Program's ability to meet the needs of crime victims during this reporting period.

5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**

We have not had many victims of federal crime apply for compensation. The only way we know that a federal crime has occurred is when the application states that the crime was reported to the Federal Bureau of Investigation offices in our state, and our caseworkers must request an incident report from the FBI in either the U.S. Eastern District or U.S. Western District. We also work with the FBI on cases where Missouri residents have been victims of crime outside of the United States.

6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**

The one notable activity during this reporting period to improve the process of victim compensation services was to allow victims and claimants to submit their applications online or fax them to our office. Victims still have the option of submitting them via regular mail if they do not have access to a computer or fax machine, however, claims must be received within the mandated two-year limit.

7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**

We have not used any VOCA Administrative Funds.

8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**

On June 21, 2019, Program staff were notified that we should adopt a "Mailbox Rule" in which the postmark date on the envelope that the application was mailed in is considered the filing date and not the date that the application arrives in the office. The Department of Public Safety's general counsel discussed this issue with the Department's director of administrative, fiscal & legal services who agreed on adopting such a policy. Having the "Mailbox Rule" provides the victim or claimant with the maximum amount of time to file an application within the mandated two years from the crime date.

9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**

We work with the state's prosecutors, law enforcement, and victim advocates (both VOCA Grant and non-VOCA grant funded) to assist these players in continuing to provide victims and their families with correct information regarding the compensation program.

10. **Please explain any public outreach efforts to improve awareness of your program.**

We have continued to give presentations to organizations/agencies that assist crime victims in filing for compensation benefits.

11. **Please list any other outcome measure(s) that are reported to the governor, legislature, or other state entity that have not been reported in this submission. Provide the actual measure(s). The data may be reported separately in your progress report.**

We do not provide additional or other outcome measures to the governor, legislature or any other state entity that have not been reported in this or any other past submission to the Office of Justice Programs.

12. **Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.**

No additional comments at this time.
