NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**
The number of applications received during the past fiscal year has dropped again slightly from last year. OVS attributes the continuing decrease in number of applications received to the Affordable Care Act as more NYS citizens are covered under these policies. Interestingly, the number of Death and Essential Personal Property claims received has remained constant.
2. **The average length of time to process an application for claim eligibility for compensation**
Count days from time of receipt of application to decision. 103

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. Upon receipt of a claim application, either electronically through the Victim Service Portal or paper, the claim is assigned to a Crime Victim Specialist when we have the appropriate signature form from the claimant. The Specialist will request documentation to establish eligibility and render a decision. Some expenses could be paid in the original decision. If additional documentation is needed for medical expenses, the claim will be referred to the Additional Medical Unit where staff will then reach out for additional information and process any further medical expenses that arrive in the future.
3. **Does your state have a victim satisfaction survey?**
No
4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**
We know that Victim Assistance Programs are seeing human trafficking victims, but we are not receiving a commensurate number of claims for compensation. The same issue is true of sexual assault victims. Finally, we are concerned that undocumented immigrants are no longer reporting crimes to the police or filing claims with OVS.
5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**
OVS continues to work with the FBI and neighboring states to prepare for mass casualty events. OVS staff has also begun to partner with municipalities within the state to prepare for any events that OVS can assist with on a county or more regional level.
6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**
OVS Compensation staff has begun traveling to our Victim Assistance Programs to do onsite trainings with the Advocates. We understand there is considerable turnover in Advocate staffing at our programs. Making sure that Advocates have current information about OVS services and a good understanding of what we can provide makes for a better experience for the victim. We are also providing regional trainings for Advocates as requested. OVS issued a new series of trainings designed for advocates and other professionals who assist individuals and their families with obtaining services, support and financial assistance in the aftermath of a crime. The 11 videos outline assistance available from OVS and offer detailed instructions for filing claims so eligible individuals can receive help with crime-related expenses, including medical, counseling and moving bills, and funeral and burial costs, among other assistance. The state agency released the videos to nearly 230 victim assistance programs it funds as the state joins the nation in recognizing National Crime Victims Rights Week.
7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**
The VOCA administrative funds support a number of OVS staff dedicated to the processing of claims. In the absence of these funds, there would be insufficient staff to process claims in a timely manner or provide quality services to crime victims and their families.
8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**
Yes. The law was changed to allow OVS the ability to give a maximum Emergency Award of \$3,000 for funeral/burial benefits without regard to any contributory conduct on the part of the Victim. If upon investigation of the claim it is determined that the victim contributed to his/her death, OVS will reduce the claim by no more than 50%.
9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**
OVS processing continue to utilize the NYS Medicaid database and the NYS Workers Compensation database. This allows staff to verify Medicaid coverage for victims without delay. It also allows us to deal directly with the providers without contacting the victim to request more information. The same is true with the Workers' Compensation access. We are able to establish whether or not Workers Comp will be paying bills and how much they may receive for Loss of Earnings without contacting the victim for this information.

10. **Please explain any public outreach efforts to improve awareness of your program.**

OVS staff attended various community events and manned information tables at several conferences throughout the state over the past year. OVS staff regularly participate in the Got Your Back backpack program sponsored by SUNY. This program puts together backpacks containing necessities and items of comfort for sexual assault victims.

11. **Please list any other outcome measure(s) that are reported to the governor, legislature, or other state entity that have not been reported in this submission. Provide the actual measure(s). The data may be reported separately in your progress report.**

OVS reports to the NYS Governor's Office on how it is meeting the requirements for the State's mandated Language Access Program. OVS staff contacts with LEP individuals and spending for translation and interpretation services are reported annually.

12. **Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.**

OVS would support an increase in the VOCA compensation award perhaps by increasing the percentage of reimbursement of state payouts to 75% from 60% or to reimburse for all payouts to crime victims regardless of funding source.
