## NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**

No significant changes for regular applications.

2. **The average length of time to process an application for claim eligibility for compensation**

Count days from time of receipt of application to decision. 93

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. Claimants may file applications for crime victim compensation online or on paper with the Ohio Attorney General's Office. Claims examiners in the Crime Victim Services Section receive new applications on a daily basis and assign each a claim number. The following procedure is used to process each claim: \* An economic loss investigator and field investigator are assigned to simultaneously investigate the claim. \*The claims examiner and economic loss investigator send correspondence to the applicant and service providers requesting information needed to verify the applicant's expenses and calculate economic loss. This includes documentation of expenses incurred and documentation of collateral source benefits such as insurance. \* Field investigators send requests to law enforcement for documentation needed to determine eligibility for compensation. This includes the police report, the coroner's report if applicable, suspect information, and the applicant's criminal history information. \* The economic loss and field investigators have 120 days from receipt of the application to complete their investigations. Investigators follow up by telephone and through correspondence to obtain all of the needed documentation. The processing time can be extended if necessary, but the office goal is to complete review of the claim prior to the 120-day deadline whenever possible. \*An economic loss supervisor checks expense calculations for accuracy. \*An Assistant Attorney General reviews the information gathered by the investigators and issues a Finding of Fact and Decision of the Attorney General regarding whether the applicant is eligible for an award. \*If the applicant disagrees with the Finding of Fact and Decision, the applicant may request reconsideration within 30 days. A different Assistant Attorney General will then re-assess the initial determination and issue a Final Decision within 60 days. \*The Final Decision of the Attorney General's Office may be further appealed to the Ohio Court of Claims. A decision by a judge of the Court of Claims is final.

3. **Does your state have a victim satisfaction survey?**

No

4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**

None.

5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**

Ohio Crime Victim Services works with the Federal Prosecutors Office to encourage victims to apply to our program.

6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**

The Attorney General's Office has continued increasing awareness of the crime victim compensation program and improving access to victim services during this reporting period. Examples of our efforts include: the Crime Victim Services outreach program, obtaining a new federal grant, implementation of a new compensation claims management system. The Crime Victim Services Section staff visited multiple organizations including non-profits, grant recipients, law enforcement agencies, and other community partners to provide information about how victims can apply for the compensation program and what expenses may be covered. These efforts help to ensure a smooth process for victims as agencies who are provided with accurate and complete information about the program can better assist victims with applying for compensation. We have also continued working on the Linking Systems of Care for Ohio Youth (LSCYOY) project, which will help to coordinate and promote awareness of victim services. A research symposium to gather additional data is scheduled for the Two Days in May Conference on Victim Assistance in May 2020. In addition to direct outreach efforts, the office has implemented substantial technological changes to improve efficiency in the compensation claims processing. The Crime Victim Services Section purchased a new claims management system, Matrix Advocate, and began using it for all claims as of July 1, 2019. This modern, web-based system allows for easier technological updates as the compensation program evolves. The system also includes various operational improvements that enhance workflow tracking, reporting calculation of expenses, and other claim processing functions to provide applicants with the most efficient service.

7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**

No administrative funds are used from the grants. All grant funds are used to pay claims.

8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**

There are no new initiatives, policy changes, or legislation for this reporting period.

9.

**Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**

Each year our office holds meetings, trainings and conferences to help victim advocates and law enforcement agencies. Two Finding the Words training was held during this reporting period. Training were held on 10-1 thru 10-5-2018 and 4-8 thru 4-12-19 with 25 participants attending each course. This is an intensive five-day forensic interviewing course using practice guidelines from the American Professional Society on the Abuse of Children (APSAC) and Office of Juvenile Justice and Delinquency Prevention (OJJDP) outlined in the bulletin. Two Days In May Conference on Victim Assistance was held 5-20 thru 5-21-19. The 2019 conference marked the 28th year holding the event. The theme to the conference was Hidden Victims, Hidden Crimes. The conference included featured speakers and 35 workshops to address issues and advocacy training. The Attorney General's Office partnered with 17 different groups to help protect Ohio families for this event. Basic Advocacy Skills in Crime Victim Services (BASICS). The 2019 training was held 8-26 thru 8-30-19. BASICS is a week-long, intensive course offering 33 hours of baseline education for new professionals in the field of victim services. The course is designed to focus on the expansion of knowledge and training for victim service providers. Participants develop skills in the area of child abuse, domestic violence, legal advocacy, crisis intervention and death notification. Ohio is one of four demonstration sites in the United States that received the Linking Systems of Care funding from the US Department of Justice-Office of Victims of Crime (OVC). OVC wishes to facilitate and improve efforts to bring healthcare, child welfare, justice, and other systems together, and to coordinate and align these efforts to ensure a timely and seamless response to young victims, their families, and caregivers, no matter the system of entry. The duration of the entire demonstration project is up to six (6) years, depending on funding. Ohio is transitioning from the Planning Phase of the project that includes a Needs Assessment/Gap Analysis, Resource Mapping, Screening Tool Development, and Strategic Plan Construction, to the Implementation Phase. The goal of the Linking Systems of Care for Ohio's Children and Youth project is to improve responses to child and youth victims and their families by providing consistent, coordinated responses that address the full presenting issues and full range of victims needs. The project is guided through three principles: Healing Individuals, Families and Communities; Linked Systems of Care; and Informed Decision Making <http://www.linkingsystemsofcare.org/about/guiding-principles.html>, (National Council of Juvenile and Family Court Judges, 2018). The section developed a partnership with agencies, coalitions and programs that serve Ohio victims state-wide. The group has been named the Victim Services Collaborative and plans to meet twice annually in the spring and fall to address matters affecting Ohio victims and those that serve them. The Collaborative has met 3 times to date since June 2018. In partnership with the Ohio Department of Health, the Compensation Program palm card is provided to the distributor of the Sexual Assault Forensic Exam Kits for inclusion in the kits so sexual assault victims get the information in the hospital at the point of examination.

**Please explain any public outreach efforts to improve awareness of your program.**

Staff members from all units of the Crime Victim Services Section volunteer time away from their daily job responsibilities to work on the section's statewide outreach initiative. The goal of these outreach efforts is to improve access to the crime victim compensation program and other victim services, and to increase the number of compensation claims filed. Staff has provided individualized training as well as large group presentation to various organizations, including VOCA/SVAA grant recipients, social service groups, law enforcement, and other community partners. These interactions help to ensure partner agencies are knowledgeable about how to complete and file compensation applications, so they can provide accurate information about the compensation program to the victims they serve. Some examples of compensation outreach efforts during this reporting period include: - Presentation to case managers at Lighthouse Youth Services in Cincinnati, which provides direct services to vulnerable and homeless youth - Full day Crime Victims Rights and Responsibilities training at the Ohio Peace Officer Training Academy - Professional training at the Ohio Domestic Violence Network's Domestic Violence Advocacy Fundamentals regional courses - Working with government and non-profit groups who respond to assist victims of crime and their families in times of crisis, including the City of Columbus Health Department, Ohio Health Trauma Recovery Center in Columbus, and Frontline Service Traumatic Loss Response Team in Cleveland. These outreach efforts help to build relationships with our partner agencies and improve communication between the Attorney General's Office, victims, and service providers. Compensation program staff provides their contact information during outreach events so advocates can follow-up directly with any questions about how to file new claims or when assisting victims with claims that have already been filed. For example, the Ohio Health Trauma Recovery Center provides support and advocacy for victims of violent crime and their families at Grant Medical Center, a large Level 1 trauma center in Columbus. After Grant hosted a discussion with Crime Victim Services staff, social workers have continued to follow-up regarding filing compensation claims, and they have also been instrumental in helping applicants to submit information needed to process these claims once filed. Developing this line of communication makes the claims filing and investigation process more efficient and provides better customer service to applicants.

**Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.**

Provide better access to victims to their claims by perfecting a new portal system in our new claims management system. The new portal will give them the opportunity to submit documents online and get updates on the status of their claim. Create a better subrogation system in the new claims management system so that we can follow-up the cases of the offenders who were not convicted at the time of our decision. This follow-up system will give is the opportunity to request subrogation from more offenders after their conviction. Legislative changes to eliminate public record requests for all crime victim claims, thus protecting all victim and claimant s personal information from the offender or other predators. Legislative changes to having money available for relocation fees for domestic violence victims and all victims who need to relocate immediately to be safe from offenders. Victims can request publication from our office on line. Publications includes: Crime Victim Right s Booklet, Crime Can be Costly palm cards (also in Spanish), VINE brochures, Applications and Resource Guides. We also provide translation of 20 different languages thru Language Line Services.
