NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**
There were no significant changes.
2. **The average length of time to process an application for claim eligibility for compensation**
Count days from time of receipt of application to decision. 202

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. Application is proofed upon receipt to make sure it is complete; the information from the application is then entered into our data base; a letter is sent to the claimant advising what information is still needed from them and what information we have requested on their behalf; letters are generated and mailed out with authorization of release attached; the claim is reviewed each time new mail is received on the claim; claim notes are updated and additional request may be generated; if enough information has not been received at the 45 day call-up to make a decision then a second request letter is sent to the claimant advising what information is still needed to process their claim and second request letters are sent out to those that still have not responded to our request; mail is still reviewed as received; at 150 days the claim is reviewed by the Ombudsman and they may send out additional request at that time; by Code, the claimant has 180 days from the date of creation to finalize the information on their claim; court case information is gathered and updated in the claim and the decision is made; if the claimant disagrees with the decision on the claim they then have 45 days to request a reconsideration or file an appeal. The claim is reviewed any time additional information is received and additional follow-up or awards are processed accordingly.

7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**
VOCA Funds are strictly used to pay on claims.
8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**
Changes made to the Code: HB 2773 removes the current \$600 limit placed on the amount that may be awarded to a crime victim for total loss of earnings resulting from incapacity. The bill also increases from \$5,000 to \$10,000 the maximum amount a claimant may be awarded from the Criminal Injuries Compensation Fund for expenses directly related to funeral or burial costs. Additionally, the bill increases from \$25,000 to \$35,000 the maximum aggregate award received by a claimant as a result of an injury or death. This change is effective July 1, 2019 and will apply to crimes committed on or after July 1, 2019. So far, it is too early to see the impact of these changes.
9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**
We continue to work with prosecutors, law enforcement, courts, victim advocates and any other program/agency that works with victims and their families to educate them on the Fund and other resources available to them.
10. **Please explain any public outreach efforts to improve awareness of your program.**
We have a full-time Training and Outreach Coordinator that travels the State of Virginia educating victims and those that work with victims on the Fund. We have a web based program for providers wherein they can access basic/limited claim status but are required to complete a training overview of the Fund and its purpose prior to access of the program. We use brochures; "tear-off" sheets for police officers; promotional items and table at victim related events.
