Describe any program or educational materials developed during the reporting period.
N/A
Describe any planning or training events held during the reporting period.
N/A
Describe any program policies changed during the reporting period.
N/A
Describe any earned media coverage events/episodes during the reporting period.
N/A
Describe any coordinated responses/services for assisting crime victims during the reporting period.
N/A
Please discuss the major issues in your state that either assist or prevent victims from receiving assistance during the reporting period.
As COVID continues to plague us this year, it continues to present challenges for victims to receive services. This takes on many forms: isolation, financial, lack of housing and substance/mental health issues.
Please describe ways that your agency promoted the coordination of public and private efforts within the community to help crime victims during the reporting period.
We have been working with new VOCA programs to increase the opportunity for victims to obtain services. This includes services for victims of child abuse, human trafficking and mental health treatment.
Please describe any notable activities at the grantee level during the reporting period that improved delivery of victim services.
Mainly due to COVID, grantees have developed alternate ways to provide services besides face to face. We made available additional funding to supplemental existing awards to allow agencies to obtain technology needed to continue to provide services safely and often remotely. This included technology such as mobile devices, laptops and virtual platforms. This technology, for many agencies, have increased the request for services and agencies are planning on continuing and enhancing virtual services after COVID.
Please discuss each priority (i.e., child abuse, domestic assault, sexual assault, and underserved) in which VOCA funds have been used to assist crime victims during the reporting period
Child Abuse- During this past year, VOCA funds assisted 28 CASA programs and 20 Child Advocacy Centers (CAC) in Indiana who provide services to child abuse victims. These funds assisted in the personnel costs for volunteer coordinators, GAL attorneys, forensic interviews and advocacy staff. In addition, many agencies receive a prorated portion of operating costs and program supplies. Domestic Violence- VOCA funds assisted 30 domestic violence shelters and 23 non-residential domestic violence service providers in Indiana who provide services to domestic violence victims. These funds were used to support the expense of the direct care staff at these agencies in addition to prorated portion of operating costs and program supplies. Sexual Assault- VOCA funds assisted many dual service agencies (domestic violence), CAC and several sexual assaults specific services providers in addition to eight (8) SANE (sexual assault nurse examiners) programs. Underserved- Many programs that are funded by VOCA serve the underserved victimization types but these are heavily serviced by the 47 Prosecutor Offices and the 13 Law Enforcement units that have victim assistance staff that is funded by VOCA. In addition to the agency types already listed VOCA funds agencies that provides services to victims in all priority areas. These agency types include legal services and counseling programs.
Please briefly describe efforts taken to serve Victims of Federal crime during the reporting period.
N/A
Please identify any emerging issues or notable trends affecting crime victim services in your state during the reporting period.
Since before COVID and exasperated by COVID is the lack of affordable housing. This issue effects the ability of some victims to receive or continue services. The widespread victimization of human trafficking has been emerging. There aren't many service providers trained in this area thus identifying these victims isn't always occurring. The state sexual assaults coalition has taken on this concern and has incorporated human trafficking into their training being provided. This additional component of their services is being partially funded by VOCA funds.
Please briefly outline any staffing retention issues that your victim assistance program has and why these issues may occur during the reporting period.

Office for Victims of Crime - Performance Measurement Tool (PMT)

Our program has had several staff leave employment. This accounted for nearly a 25% turnover ~~at~~ The feedback given for seeking other opportunities is low salary for the difficulty and load of work that needs to be completed.

Please explain your state process to publicize its victim assistance funding for services to victims of crime during the reporting period.

Our funding opportunities are publicized through the State listserv, on our agency website and sent out to active subgrantees through our grant management system.

Please explain how your state is able to direct funding to new/underserved populations during the reporting period.

We made available in 2020 a one-year funding opportunity to fund underserved populations. A few of the underserved populations that were being targeted include LGBTQIA, immigrants, Hispanic, victims of non-violent crimes and victims of drunk driving,

Please explain how your program is able to respond to gaps in services during the reporting period.

We made available a one-year funding opportunity to fund increase or different costs associated with COVID. Many programs had to switch to providing services remotely but didn't have the technology to do so. This funding assisted in services to be able to be provided to victims.

Please list and explain any outcome measure(s) that are reported to the governor, legislature, or other state entity during the reporting period.

N/A
