

MS Annual State Performance Report

Victim Assistance Formula Grant Program

Reporting Period: [Oct 1, 2021 to Sept 30, 2022]

This aggregated data is self-reported by the grantees and subgrantees in each state/territory.

OVC VOCA Assistance Funds					
	2018-V2-GX-0168	2019-V2-GX-0032	2020-V2-GX-0021	2021-15POVC-21-GG-00581-ASSI	2022-15POVC-22-GG-00770-ASSI
Federal Award Amount	\$30,399,551.00	\$20,596,471.00	\$15,218,388.00	\$9,532,820.00	\$12,876,068.00
Total Amount of Subawards	\$28,568,506.00	\$15,819,425.00	\$8,520,072.00	\$0.00	\$0.00
Total Number of Subawards	89	44	49	0	0
Administrative Funds Amount	\$1,519,977.00	\$1,029,823.00	\$760,919.00	\$476,641.00	\$0.00
Training Funds Amount	\$0.00	\$0.00	\$0.00	\$0.00	\$0.00
Balance Remaining	\$311,068.00	\$3,747,223.00	\$5,937,397.00	\$9,056,179.00	\$12,876,068.00

Subgrantee Organization Type					
The total number of subgrants represents all subgrants funded across all federal awards active during the reporting period. The number is not unique as there are subgrantee organizations that are continuously funded from each federal award.					
Type of Organization	2018-V2-GX-0168	2019-V2-GX-0032	2020-V2-GX-0021	2021-15POVC-21-GG-00581-ASSI	2022-15POVC-22-GG-00770-ASSI

ANNUAL QUESTIONS

Grantee Annually Reported Questions	
Question/Option	Count
Were any administrative and training funds used during the reporting period?	
Yes	1
No	0
Did the administrative funds support any education activities during the reporting period?	
Yes	1
No	0
Number of requests received for education activities during the reporting period.	2
Number of people trained or attending education events during the reporting period.	2
Number of events conducted during the reporting period.	1
Did the grant support any coordination activities (e.g., with other service providers, law enforcement agencies) during the reporting period?	
Yes	1
No	0
Describe any program or educational materials developed during the reporting period.	
MSDH, OAIV did not develop any educational materials during the reporting period.	
Describe any planning or training events held during the reporting period.	
OAIV entered into a contract with MS Public Health Institute to assist with virtually hosting and recording the training and technical assistance webinars to all subgrantees which included VOCA subgrantees. This contract was not funded with VOCA funds. These webinars consisted of a Mandatory STOP Training and Implementation Plan overview, Subgrantee Orientation and Grant Solicitation Q and A for VOCA, VAWA, and FVPSA funding.	

Office for Victims of Crime - Performance Measurement Tool (PMT)

Describe any program policies changed during the reporting period.
MSDH-OAIV continues to evaluate its policies and procedures. The agency has changed several procedural policies during the reporting period. Based on the VOCA Fix legislation the department revised its Match Waiver policy, Match Determination Form and process to comply with this federal law. Additionally, with the technical assistance of the Booz Hamilton Consultant Group and the OVC VOCA Center the State also revised policy on the following grant requirements: 1. SAR: Reconciliation and SAR reporting Part 1 and Part 2, tracking VOCA funding priorities by federal award outside of the PMT database and developing a data validation process for PMT Quarterly Reporting. 2. Risk Assessments and Monitoring. Additionally, TA was given to amend OAIV's policy and practice on the subgrantee's risk criterion categories, risk status, and a consolidated monitoring tool and policy when monitoring shared providers. Changes to the monitoring policy were initiated during the reporting period but will be implemented through the 11/1/2022- 9/30/23 grant award cycle.
Describe any earned media coverage events/episodes during the reporting period.
No media coverage events were conducted at the state level. Media coverage efforts events are conducted on the subgrantee level.
Describe any coordinated responses/services for assisting crime victims during the reporting period.
During the reporting period, the state efforts to coordinate and enhance victim services consisted of participating in more statewide collaborative efforts. These efforts helped to identify and close gaps in service delivery among various systems such as education, military, community level coalitions and county government entities. These initiatives consisted of the following: 1. MS Campus Cohort- The VOCA Administrator participated in meetings with MS Campus Cohort program which is funded through the Mississippi Coalition Against Sexual Assault. The department's role was to identify funding barriers and service challenges that may hinder campus-based programming. A goal of the department was to assist participating members of the cohort by coordinating VOCA resources to aid campuses in strengthening services for victims of sexual assault, domestic violence, dating violence, stalking. As of result of participating in the Campus Cohort, OAIV awarded funds to two campus-based programs: Tougaloo College which is a private, coeducational, historically black four-year liberal art institution and Mississippi State University for Agriculture and Applied Science, commonly known as Mississippi State University (MSU). This university currently enrolls more students than any other college or university in the state. 2. Military Initiative was the state's first engagement meeting which helped to build partnerships across the varying military installations and their advocates across our great state. This meeting helped us identify available resources based upon discharge status: resources for honorably discharged veterans versus those who had been dishonorably discharged. The advocate group was made up of diverse military support advocates which include those from the Army, Navy, Air Force, and MS Air National Guard. Each represented a different military installation across the state of Mississippi. It is our hope to continue to have these meetings to better coordinate services for veterans and their families across the State. 3. Coalition Meetings- OAIV VOCA, VAWA and Community Grant Administrators meet monthly with Executive Directors of the Mississippi Coalition Against Domestic Violence (MCADV) and the Mississippi Coalition Against Sexual Assault (MSCASA). These meetings are held to display the deliberative consultation and coordination between OAIV and the coalitions. The coalition directors provide input and expertise while addressing gaps in service and specific needs of funded domestic violence and sexual assault agencies. Through OAIV funding, the coalitions provide technical assistance and training that has been identified during the meetings. 4. Hinds County Joint Planning Initiative- The department is currently working on a initiative to address services gaps and service coordination for the most populous county in Mississippi. This county is a central part of Jackson, MS Metropolitan Statistical Area. It is a professional, educational, business and industrial hub in the state. 5. Continued tribal engagement with the State's only federally recognized tribe the Mississippi Band of Choctaw Indians.
Please discuss the major issues in your state that either assist or prevent victims from receiving assistance during the reporting period.
Prior to COVID 19, barriers to individuals receiving services in the state of Mississippi continued to vary greatly. A continued victim service barrier is transportation. Transportation remains to be an area of improvement for our state. Presently, there are only two areas of the state with mass transit (the MS Gulf Coastal area and Jackson Metro area). Even in these areas, the services are not consistently reliable. Since COVID-19, there have been many changes in practices within local medical offices and hospitals, mental health clinics and court rooms due to efforts to put in practice social distance measures. As a result, this greatly affected who could accompany victims to any medical, mental or legal appointments. Some of the financial hurdles for the State was trying to deliver traditional face to face services amid the COVID- 19 pandemic with federal budget cuts. The State also experienced increases in costs associated with equipment purchases for telehealth services, commodities to deep clean areas to prevent the spread of COVID-19 and increases in overtime work shifts. Additionally, subgrantees showed methods of resiliency by making the following programmatic changes: Organizational and personnel restructuring, increase in hardware and software purchases that supported an online and on-demand platform for continuity of operations, visual and audio needs for mobile advocacy and telehealth services, and continued Sustainability planning.
Please describe ways that your agency promoted the coordination of public and private efforts within the community to help crime victims during the reporting period.
During the State's 2023 Requests for Proposals (RFP), OAIV required applicants to identify local cross system collaborations by identifying local partnerships and any memorandums with service providers, law enforcement agencies, and any victim sponsored support groups.
Please describe any notable activities at the grantee level during the reporting period that improved delivery of victim services.
With the decline in VOCA Assistance federal dollars, the State showed resiliency by allowing flexibility with work schedules, revising Standard Operating Procedures for remote and telework practices, restructuring and working with cooperatively with state level partners to maximize and leverage all funding sources to maintain victim services. Additionally, subgrantees also showed methods of resiliency by making the following programmatic changes: 1. Organizational and personnel restructuring, 2. Increase in hardware and software purchases that supported an online and on-demand platform for continuity of operations, visual and audio resources allocated to support mobile advocacy and telehealth services, and 3. Continued Sustainability planning by diversifying funding. It was also during this period, that the Governor signed HB 1550 Capitol Expense Funds into law in March 2022. Section 2 of the HB 1550 Capitol Expense bill granted the department additional state appropriations for State Fiscal Year 2022. These funds were given to reimburse its subgrant recipients for the period beginning July 1, 2021 and ending June 30, 2022. Because of HB 1550, the State was allocated \$9,852,684.00 to administer to entities up to the difference between the 2021 and 2022 Victims of Crime Act grants awarded by the Department. In addition, in determining reimbursable expenses, the State Department of Health had to use the same allowable costs for VOCA as defined by the Office for Victims of Crime to reimburse its subgrantees. OAIV implemented two methods to expend these funds: 1. The first method was to modify the funding type by adding the state funding source to VOCA sub awards that had an award period of 10/1/2021- 9/30/2022. The State could then utilize these funds to process reimbursements for the March thru June timeframe. 2. The second expenditure method was to establish new agreements to supplement the loss/decline of current VOCA funding.
Please discuss each priority (i.e., child abuse, domestic assault, sexual assault, and underserved) in which VOCA funds have been used to assist crime victims during the reporting period
The state continues to ensure that with each RFP solicitation priority categories are identified during the solicitation process. As a part of the state's evaluation and selection process for funding, subgrantees had to clearly identify the funding priorities in their grant application. Budget requests for VOCA funding and project workplans had to align and support the required VOCA funding priorities. Presently, the State funds many organizations that address a variety of victimization types. These agencies presently range from law enforcement, district attorney offices, child placement providers, domestic violence, campus-based organizations, sexual assault centers, and a non-profit legal service provider that offers statewide legal services. Lastly, the department continues to fund immigration legal assistance, interpreter services and assists the State's only federally recognized tribe with VOCA assistance funding.
Please briefly describe efforts taken to serve Victims of Federal crime during the reporting period.
In the State's solicitations it mandates that all victims of federal crimes must be provided services on the same basis as victims of state and local crimes. Federal crimes may include human trafficking, bank robbery, kidnapping, etc. as well as crimes committed on federal property such as military installations, national parks, and certain Indian reservations.
Please identify any emerging issues or notable trends affecting crime victim services in your state during the reporting period.
Barriers to legal services continues to be the emerging issue affecting crime victim services in our State. In addition to the emerging trend of an increased need for legal services, reductions in VOCA federal funds also caused a domino effect with the reduction in victim services and qualified staff to provide assistance to victims of crime.
Please briefly outline any staffing retention issues that your victim assistance program has and why these issues may occur during the reporting period.
During this reporting period, the MS State Personnel Board implemented the SEC2 project. Project SEC2 is a state employee classification and compensation initiative. The goal of Project SEC2 is to create a classification and compensation system that is fair and equitable and allows for recruitment, retention, and motivation of a qualified workforce. The new classification and compensation system went into effect on January 1, 2022. As result, the department reclassified positions and gave up to a 3% increase to staff currently employed with the department. Currently, the department is recruiting to fill staff vacancies within the VOCA unit with hopes to recruit and retain staff at more marketable salaries.
Please explain your state process to publicize its victim assistance funding for services to victims of crime during the reporting period.
On the state level, MSDH efforts consists of publicizing its solicitations on the agency's website and maintaining an interested vendor lists for future funding notifications. Additionally, victims' assistance is also primarily publicized through online social media platforms such as Facebook and Instagram, and the agency websites (e.g. HealtyMS.com). All subgrantees conduct outreach in their local communities to ensure victim services are publicized.
Please explain how your state is able to direct funding to new/underserved populations during the reporting period.

Office for Victims of Crime - Performance Measurement Tool (PMT)

It was during the current reporting period that the State fell below the required funding percentage for the underserved category. With the technical assistance of the Booz Hamilton Consultant Group, the State developed a process to track and monitor VOCA funding priorities by federal award external to the PMT database. Because of the State's ability to now track and monitor the required funding priorities, the State will be able to direct more funding to new/underserved populations.

Please explain how your program is able to respond to gaps in services during the reporting period.

Through partnerships with the statewide domestic and sexual assault coalitions, collaborative efforts with the MS Public Health Institute and cross system collaboration with MS Victim Compensation program, OAIIV responds to identified gaps in services.

Please list and explain any outcome measure(s) that are reported to the governor, legislature, or other state entity during the reporting period.

OAIIV compiles and submits the number of victims served in the MSDH agency wide annual report. This report is also shared with the State's legislative budget office and publicized on the agency's website.
