NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**
During the quarter April - June, there was a decrease in applications of about 40%. Application totals rebounded beginning in July and has been consistently normal since then.
2. **The average length of time to process an application for claim eligibility for compensation**
Count days from time of receipt of application to decision. 17

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. Application is received and entered into claims processing system. Law Enforcement report and/or other documentation, such as medical records, mental health treatment records, or victim advocacy statements, is requested. Upon receipt of documentation, decision is made by assigned compensation specialist. If denying application, recommendation is made to Compensation Administrator. If recommending approval, file goes through peer-to-peer quality control process. Recommendations for approval where issues exist may be reviewed by Compensation Administrator. Processing payments follows similar steps.
3. **Does your state have a victim satisfaction survey?**
No
4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**
Due to the pandemic, Iowa compensation program staff have been working remotely 80% of the time since March, 2020. This has stretched the process of quality control review and some payment processing steps handled by financial staff. This has not had a major impact on the program's ability to meet the needs of victims, it has slowed some processes by a matter of days.
5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**
CVAD has relationships with victim-witness coordinators in both the Northern and Southern Districts of Iowa. We also work closely with the FBI victim specialist in Iowa. When there is a victim of a federal crime we rely on those relationships to help ensure our program information is made available to victims. Compensation staff is also in regular communication with those individuals when seeking an application from a Federal crime victims.
6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**
None during this period.
7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**
VOCA Administrative funds support the salaries of 3 investigators/compensation specialists who process applications to determine eligibility, and calculate eligible benefit payments.
8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**
None during this period.
9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**
Iowa VOCA Assistance funds are administered out of the same office as the Iowa Victim Compensation program. This allows for strong coordination among staff administering both programs. We conduct frequent trainings with our partners in law enforcement and prosecution at the local, state, and federal level to ensure victims are made aware of the compensation program. Our statewide DV and SA coalitions provide training to new victim advocates working in programs funded by VOCA Assistance dollars. Compensation staff is given the opportunity to participate in those trainings. In addition, state law allowed the compensation program to reimburse community-based victim service programs for expenses paid on behalf of eligible victims for relocation assistance. CVAD has done significant training for program staff at all levels to grow understanding around how to submit payment information to the compensation program; what is allowable for the compensation program; and the differences between VOCA Assistance funds and VOCA Compensation funds.
10. **Please explain any public outreach efforts to improve awareness of your program.**

Crime Victim Assistance Division staff conducted training and outreach efforts statewide. Audiences include law enforcement personnel and cadets, victim assistance programs and advocates, prosecutors and victim-witness coordinators, criminal justice classes, hospital social workers, mortuary service providers. We staff tables at a variety of conferences and distribute program information.

11. **Please list any other outcome measure(s) that are reported to the governor, legislature, or other state entity that have not been reported in this submission. Provide the actual measure(s). The data may be reported separately in your progress report.**

An annual report based on state fiscal year is provided to the legislature by January 15 of each year.

12. **Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.**
