NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**

There were 8,107 new Crime Victim Compensation (CVC) applications received during the FFY21 reporting period compared to 9,566 received in FFY20. This decrease of @ 15% is attributed directly to continued impact of COVID in Colorado. Persons continue to work from home, or have left jobs related; schools across the state have vacillated between in-person and virtual classes, as have court room operations. Court and law enforcement victim advocates, as well as advocates in allied victim service agencies, find it more difficult to connect and communicate services to victims when working remotely, or solely through electronic means, including getting victims CVC application information.

2. **The average length of time to process an application for claim eligibility for compensation**

Count days from time of receipt of application to decision. 31

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. Explain the responsibilities of your office in processing a claim: Colorado has a decentralized system for the administration of CVC program activity which includes processing of applications and disbursement of compensation funds. The Office of Victims Programs responsibilities in regard to claim processing involve 1) providing on-going technical assistance requested by local CVC programs; and, 2) routine monitoring of state standards outlining baseline claim processing requirements for local CVC programs. How long does it take to process a VOCA claim? Colorado State Standards for the Administration of Crime Victim Compensation Programs requires CVC claims to be processed within 45 working days, and no later than 60 days, from receipt of a completed application to the CVC Board's initial eligibility determination. How long does it take to cut a check for a VOCA claim? Local CVC programs disburse CVC funds on a monthly basis, generally after a regularly scheduled claim review meeting. The Colorado State Standards for the Administration of Crime Victim Compensation Programs requires the Judicial District Administrator to issue payments on a victim compensation claim within ten working days of receipt of the signed payment authorizations submitted by a CVC Board.

3. **Does your state have a victim satisfaction survey?**

No

4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**

As mentioned in response #1 of this report, measures to address and contain the COVID-19 pandemic in Colorado have resulted in a decrease of victim service personnel availability to provide services at the same level as in prior federal fiscal years, and the eligible CVC crimes being reported have decreased. The inability of CVC programs to pay for tangible housing expenses necessary for the safety and economic stability of victims, particularly victims of sexual assault and domestic violence crimes is a continually demonstrable service gap, as funds are insufficient and/or the documentation required for auditing purposes is challenging for victims to obtain and/or provide.

5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**

Local CVC programs are encouraged to serve victims of federal crimes and coordinate the delivery of services with federal officials in several ways. CVC administrators coordinate CVC program assistance with local FBI representatives, including victim advocates, when a federal crime takes place in their local judicial district. CVC administrators coordinate provision of CVC program assistance with victim advocates at the U.S. Attorney's Office when crimes are filed for federal prosecution, as well as the child advocate designated by the FBI to assist victims of child trafficking and sexual assault crimes. The CVC administrators consistently work with tribal victim advocates and prosecutors to provide CVC outreach and assistance for crime victims residing in the two federally recognized Native American tribes of southeastern Colorado.

6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**

All judicial districts currently receiving federal CVC grant funds continue to meet virtually on a regular basis to exchange information and payment strategies in an ongoing effort to minimize disparity in CVC assistance victims may experience due to the location of crime and limited CVC funds available for allocation. OVP hosted a full day Statewide Administrator CVC Meeting in May, 2021 which included addressing strategies for CVC outreach implemented during the COVID-19 pandemic, as well as addressing the decline in local CVC revenue that has resulted from the continued shut / slow down of court hearings.

7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**

Colorado's decentralized system for the administration of CVC programs provides for a timely response to the immediate, tangible needs of victims in the same communities in which they often reside. Each of the 22 judicial districts throughout the state access the technical assistance, training and support provided by the four Division of Criminal Justice positions which are partially funded with VOCA administrative fund; these four personnel are also integral to conducting statewide VOCA funded program monitoring and reporting. The Office of Programs Manager, Victim Compensation Administrator, Victim Compensation Financial Specialist and Administrative Assistant within the Office for Victims Programs all have a role in the administration of Colorado CVC financial and programmatic services.

8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**

The Colorado General Assembly allocated \$1.5 million of American Recovery Act funds for local judicial district Crime Victim Compensation programs. These funds will be administered and allocated consistent with how federal CVC grant funds are managed by the Division of Criminal Justice. These funds will assist CVC programs in communities where CVC requests exceed available CVC criminal court surcharges collected.

9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**

The VOCA Assistance Coordinator and VOCA Compensation Coordinator are housed within the Division of Criminal Justice Office for Victims Programs and collaborate on a regular basis. In an effort to reduce CVC application barriers for victims, all VOCA Assistance grant recipients are required to inform victims of the availability of CVC assistance and local CVC procedures as well as provide assistance to victims in completing CVC application forms, identifying statutory compensable losses and obtaining necessary documentation of compensable losses. One of the greatest advantages of Colorado's decentralized CVC structure is the increased accessibility victims have to CVC program administrators that facilitates the timely response to the tangible needs that result following a crime.

10. **Please explain any public outreach efforts to improve awareness of your program.**

Each summer, the Colorado Organization of Victim Assistance (COVA) sponsors a Victim Services Academy which is attended by over 40 persons. The Academy was held twice in 2021; once in May and again in August. Victim advocates from community based non-profit, prosecution and/or law enforcement based victim service agencies attend the COVA Academy. Each fall, COVA also sponsors a statewide conference which draws over 1,100 diverse attendees. This year the conference was conducted virtually, with @ 950 persons registered for the event. Persons attending the conference include prosecutors, law enforcement sworn personnel, judiciary, tribal representatives and federal justice system professionals. The State CVC Administrator conducts training regarding CVC eligibility, application, fund collections and disbursement as well as general CVC program operating procedures at both the COVA Academy and the conference. Attendees of both the COVA Academy and conference leave with a working knowledge of system-coordination in the delivery of CVC assistance to victims of crime throughout the state. This working knowledge reduces barriers for victims applying to receive CVC by increasing dissemination of accurate information and providing local CVC administrator contact information so that training attendees assist victims with direct referrals in their local communities. The training also increases the awareness of persons who may have had little to no previous awareness of CVC assistance in Colorado. Regular training of paid and volunteer personnel in prosecution offices regarding the availability of CVC funds is required the state standards governing local CVC programs, as is conducting public education and outreach activities. Each local CVC program has developed thoughtful public education and outreach efforts that are responsive to their communities. These include offering regular trainings to community based non-profit and law enforcement based victim service programs; disseminating victim compensation brochures in English and Spanish to hospitals and medical offices in the community; partnering with Sexual Assault Response Teams to be included in training videos used by medical, law enforcement and mental health agencies.

11. **Please list any other outcome measure(s) that are reported to the governor, legislature, or other state entity that have not been reported in this submission. Provide the actual measure(s). The data may be reported separately in your progress report.**

The Division of Criminal Justice (DCJ) Office for Victims Programs (OVP) puts together the "Colorado Crime Victim Compensation Annual Report" which provides state aggregate and individual judicial district CVC data for the number of victims served and dollar amount of CVC funds paid both per crime and service types during a federal fiscal year time period. This report is provided to members of the Colorado Executive Department and Colorado General Assembly. The FFY 2020 Annual Report, as well as Annual Reports back to 2014, may be found at the DCJ OVP website at: <https://dcj.colorado.gov/crime-victim-compensation>

12. **Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.**

OVP is appreciative of the communication with, and assistance from, the OVC Manager and have no additional comments at this time.
