NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**
Early in the performance period we received nearly double the applications we normally receive. The number of applications leveled by the end of the first quarter and then picked back up again and we are estimating we will receive more applications in the remainder of the calendar year than we've had since 2016. We believe our new online application system is really helping to improve the ease of completing an application.
2. **The average length of time to process an application for claim eligibility for compensation**
Count days from time of receipt of application to decision. 13

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. The largest majority of our applications are received through our online application system. Once received, the application is reviewed to ensure it's complete. We then request LE information. Once the LE information is returned a final check on the application is completed by admin staff. The application is then routed to the Program Manager for review and approval/denial. Depending on the circumstances in the application it's possible additional information may be needed prior to a decision being made.
3. **Does your state have a victim satisfaction survey?**
No
4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**
Nothing to report for the performance period.
5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**
We have an excellent working relationship with our Federal victim witness advocates. They are included in our communications and we have regular contact with them regarding status on claims or cases.
6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**
The biggest achievement to report is the launch of our online application system. This has greatly improved our efficiency in processing applications. We have reduced the number of days for us to review and approve/deny applications. Our new online application is accessible from any computer, tablet, or mobile device making it much more accessible than the old paper application. The application is also simplified allowing victims to complete the application quicker.
7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**
North Dakota did not use any administrative funds from our grant.
8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**
There were no major changes to laws, initiatives, or policies. However, there were changes to internal business practices to align with changes from our online application system.
9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**
Nothing current to report.
10. **Please explain any public outreach efforts to improve awareness of your program.**
We are currently developing a brochure for victim service providers and others to provide victims. We do not currently have a brochure or other publication. We are also working to find avenues to train various agencies and personnel working with victims.
11. **Please list any other outcome measure(s) that are reported to the governor, legislature, or other state entity that have not been reported in this submission. Provide the actual measure(s). The data may be reported separately in your progress report.**
No additional information to report.
12. **Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.**
