## NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**

No significant changes for regular applications. There was an increase of 134 applications over the last FFY20 which covered COVID19. When averaging the last three FFY years, the increase is 25 over the average.

2. **The average length of time to process an application for claim eligibility for compensation**

Count days from time of receipt of application to decision. 122

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. Claimants may file applications for crime victim compensation online or on paper with the Ohio Attorney General's Office. Claims examiners in the Crime Victim Services Section receive new applications on a daily basis and assign each a claim number. The following procedure is used to process each claim: An economic loss investigator and field investigator are assigned to simultaneously investigate the claim. The claims examiner and economic loss investigator send correspondence to the applicant and service providers requesting information needed to verify the applicant's expenses and calculate economic loss. This includes documentation of expenses incurred and documentation of collateral source benefits such as insurance. Field investigators send requests to law enforcement for documentation needed to determine eligibility for compensation. This includes the police report, the coroner's report if applicable, suspect information, and the applicant's criminal history information. They also check with prosecutors to verify evidence held, court dates, and any restitution ordered and paid by the offender. The economic loss and field investigators have 120 days from receipt of the application to complete their investigations. Investigators follow up by telephone and through correspondence to obtain all of the needed documentation. The processing time can be extended if necessary, but the office goal is to complete review of the claim prior to the 120-day deadline whenever possible. An economic loss supervisor checks all claims whether a zero claim or an award claim. They make sure the expense calculations are accurate and detailed. An Assistant Attorney General reviews the information gathered by the investigators and issues a Finding of Fact and Decision of the Attorney General regarding whether the applicant is eligible for an award. If the applicant disagrees with the Finding of Fact and Decision, the applicant may request reconsideration within 30 days. A different Assistant Attorney General will then re-assess the initial determination and issue a Final Decision within 60 days. The Final Decision of the Attorney General's Office may be further appealed to the Ohio Court of Claims. A decision by a judge of the Court of Claims is final.

3. **Does your state have a victim satisfaction survey?**

No

4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**

None

5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**

The section works with advocates from the U.S. Attorney's office to assist victims with filing applications for compensation.

6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**

The Attorney General's Office has continued to promote the use of the Matrix online system that we have developed over the last several years. During the current reporting period we added detailed information about the Matrix to the AGO outreach presentation, which helps to inform our community partners about how they can assist victims with filing claims. Our office also recently attended and presented at the NOVA conference in an effort to collaborate with other states regarding the latest claim management technology. The AGO has continued to make internal improvements and updates to Matrix including the expansion of master parties (a frequent contacts database for providers and other entities with whom the office regularly corresponds during claim investigations). This has helped to streamline the investigation process, reduce delays, and ensure compensation is awarded to the correct provider entity under the correct Tax Identification Number. The AGO has also continued developing its external interface for victims including streamlining the process for victims who have filed a claim on paper to request online access to their claim. The office includes information in all of its correspondence to claimants promoting the use of the online system as a beneficial and user-friendly way to claimants to communicate with the office.

7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**

No administrative funds are used from the grants. All grant funds are used to pay claims.

8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**

There is pending legislation to remove the felony and domestic violence conviction disqualification as well as the drug possession disqualification. The legislation would also reinstate a statute of limitations for filing a claim.

9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**

Each year our office holds meetings, trainings and conferences to help victim advocates and law enforcement agencies. Only one Finding the Words training was held during this reporting period. Training was held on 2-22-21 thru 2-26-21 with 30 participants attending the course. Due to COVID19, the fall training was canceled. This is an intensive five-day forensic interviewing course using practice guidelines from the American Professional Society on the Abuse of Children (APSAC) and Office of Juvenile Justice and Delinquency Prevention (OJJDP) outlined in the bulletin. Two Days In May Conference on Victim Assistance was cancelled due to COVID19. The conference highlights the work of trauma recovery centers and provides results from national research around victimization rates for those attending. Awards are presented that recognized service providers who were doing exemplary work to address the needs of victims. Plans are underway to hold conference in 2022. Our office presented at the Linking Systems of Care for Ohio's Youth (LSCOY) virtual information Expo on June 30, 2021. The goal of the Linking Systems of Care for Ohio's Children and Youth project is to improve responses to child and youth victims and their families by providing consistent, coordinated responses that address the full presenting issues and full range of victims needs. Ohio is one of four demonstration sites in the United States that received the Linking Systems of Care funding from the US Department of Justice-Office of Victims of Crime (OVC).

10. **Please explain any public outreach efforts to improve awareness of your program.**

The Attorney General's Office has continued its public outreach activities, including many virtual presentations to promote the compensation program, during this reporting period. Overall, the shift to primarily virtual training has been well-received. Partner agencies have commented that virtual sessions allow for increased participation and less cost for staff and travel time. This is additionally a cost savings to the AGO as it reduces travel and staff hours. Examples of compensation program training presented by AGO staff during this reporting period include: Four professional training sessions as part of the Ohio Domestic Violence Network's Domestic Violence Advocacy Fundamentals courses, which draw over 100 participants per session. Quarterly presentations for office staff and hotline/hospital volunteers at Women Helping Women (domestic violence and sexual assault services organization). Presentations for Asian American Community Services and Lighthouse Youth Services (advocates for at-risk youth). Presentation of a live webinar for the Ohio Victim Witness Association, which was also archived for later use by its members.

11. **Please list any other outcome measure(s) that are reported to the governor, legislature, or other state entity that have not been reported in this submission. Provide the actual measure(s). The data may be reported separately in your progress report.**

Ohio Revised Code (ORC) Section 2743.69 requires Ohio Attorney General's Office to provide an annual update on the Ohio Victims of Crime Compensation Fund under sections 2743.51 to 2743.72 to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the minority leaders of both houses.

12. **Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.**

Continue to perfect the new portal system in the Matrix claims management system making it easier for victims to update their claims, and check the status of the claims from the onset to the decisions. We have also made it possible for the portal users to ask questions, submit their responses to our requests, and submit copies of all documents that they would like us to consider. Continue to perfect the ways we can track all claims where subrogation is possible due to convictions pending at the time of our decisions. Claims can be triggered for follow up investigations into the criminal trials of the offenders, thus increasing our subrogation revenue. Legislative changes to eliminate public record requests for all crime victim claims, thus protecting all victim and claimant's personal information from the offender or other predators. Legislative changes or federal grants issued specifically for relocation fees for domestic violence victims and all victims who need to relocate immediately to be safe from offenders. Victims can request publication from our office on line. Publications includes: Crime Victim Right's Booklet, Crime Can be Costly palm cards (also in Spanish), VINE brochures, Applications and Resource Guides. We also provide translation of 20 different languages thru Language Line Services. Working with agencies to provide support with non-English speaking applicants so that we are able to properly communicate with them and process their claims efficiently. Providing other resource contacts to the applicants in our decisions when we are unable to help them with awards per our state statute.
