NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**
 Pennsylvania experienced a 2% increase in the number of claims during this reporting period. For Federal Fiscal year 2019-2020, Pennsylvania received 5,682 applications and for Federal Fiscal year 2020-2021, a total of 5,781 applications were received. For the past few years, Pennsylvania has seen a gradual increase in claims as the courts and victim witness programs re-opened from initially being closed as a result of COVID 19.
2. **The average length of time to process an application for claim eligibility for compensation**
 Count days from time of receipt of application to decision. 97

 Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. 97 days. This is a slight increase from last year when the processing time was 91. We attribute this to be a result of filling vacancies and the time it took for veteran staff to train new staff. It takes new staff approximately 1-year to become proficient on all benefit types. This increase can also be attributed to the office closure and subsequent teleworking that was implemented due to COVID-19. Due to closures across the state there were delays in obtaining police reports, employer verifications, provider verifications, etc. Pennsylvania counts average processing time from the date the application is received until a first-time decision is made to either pay or deny. If after 60 days, the claimant has failed to submit proper documentation, the claim can be placed into an inactive status, which does stop the counting for average processing time.
3. **Does your state have a victim satisfaction survey?**
 No
4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**
 Pennsylvania continues to strengthen our outreach to legislators and citizens to better educate them on compensation and help them understand that no state tax dollars are used to fund the program. We continue to try and find new ways to conduct this outreach. COVID-19 also had an impact on the processing time of compensation claims. Due to closures of courts and other offices around the state, there was a delay in obtaining the necessary documentation needed to process claims which in turn lengthened the processing time
5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**
 Pennsylvania continues to work with federal partners to ensure crime victim needs are met. Cross border issues continue to be a discussion topic when the crime occurs in two (2) or more states.
6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**
 During this reporting period, Pennsylvania revised the claim forms and made updates to the online claim filing system to reflect these revisions. Also, during this reporting period, Pennsylvania state agencies teleworked due to COVID-19. As a result, a process was put in place to enable staff to work on claims while teleworking.
7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**
 The administrative funds are used to partially support the salary and benefits of two staff persons. One of these individuals, a claim specialist, works directly with the Victims Compensation Assistance Program claim process. This process includes determination of eligibility, the verification process, making decisions and the preparation of recommendations. This staff member works directly with victim service groups, service care providers, law enforcement agencies, Clerk of Courts, District Attorney Offices, and victim/claimant compensation claims received daily. The second position provides clerical support for the VCAP. This position assures that all data and bills for incoming claim forms are entered daily into the claim processing system and designates Emergency Awards as a priority status. This position also assures that all incoming mail is opened and logged, mails acknowledgement letters to victims and claimants, sends notices of decision to victims, claimants and the victim service agencies, and provides assistance to other staff with administrative responsibilities such as filing and copying.
8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**
 During this reporting period, there were no changes regarding compensation. Changes have been drafted to the current Crime Victims Act with the hopes of expanding benefits in the future.
9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**

The Victims Compensation Program Administrator and State VOCA Assistance Administrator are both within the same office in Pennsylvania. There is a very close working relationship. Since the Deputy Director oversees both areas, it provides a better source of communication among the programs. This is an ideal working situation which quickly addresses any barriers that may arise. Victims compensation also works closely with partners to ensure barriers are addressed immediately. Through committee structures at the Pennsylvania Commission on Crime and Delinquency, staff have access to Criminal Justice Advisory Boards which have the ability to coordinate with local law enforcement, courts, etc. The PCCD, Office of Victim Services also has a very good working relationship with the Pennsylvania District Attorneys Association to quickly address barriers that may arise with prosecutor offices.

10. **Please explain any public outreach efforts to improve awareness of your program.**

Pennsylvania continues to promote the victims compensation program using its own website, the app, newsletter articles, pamphlets, brochures (especially the law enforcement brochures that were developed for law enforcement to provide at the time of the crime) and various other outreach such as presentation and conference participation. Staff participated in legislative community events in which information related to Victims Compensation was shared. The claim forms were recently translated into Spanish, Korean, Vietnamese, Chinese, Russian and German. We are in the process of having informational brochures translated as well.

11. **Please list any other outcome measure(s) that are reported to the governor, legislature, or other state entity that have not been reported in this submission. Provide the actual measure(s). The data may be reported separately in your progress report.**

The Program submitted a State Performance Plan for Fiscal year 2020-2021. The following performance measures were reported: Average processing time for claims (14 weeks); number of claims receiving payment through VCAP (7,630); number of VCAP claimants served who are victims or survivors of violent crime as defined by the UCR (9,648); number of claims denied for payment (426); and total amount paid by VCAP to claimants annually(\$12,382,887.22). In years past the Program has reported the percentage of satisfactory surveys received. However, we receive a low return rate of surveys (about 4% that we send are returned). We are in the process of revamping the survey due to it being outdated. As a result of this work, survey results are not available for this reporting period. It is anticipated the new survey will be distributed during this period.

12. **Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.**

None at this time.
