Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. Once an application is received and confirmed complete enough to process, the application is entered into our software program. Letters are sent to requesting documentation from claimants, law enforcement, county attorney's offices and providers. 8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**
Legislation was passed in 2022 that increased caps for particular expenses. Funeral expenses were increased from \$5000 to \$7500, this marks the first increase since 1998 for this expense. Crime Scene clean-up was increased from \$1000 to \$2500 for the first time since it was added as an allowable expense in 2007. Additionally, the definition of crime scene cleanup was expanding from removal costs only, to include replacement of materials that were biohazardous or damaged during evidence collection. Lastly, the \$100 economic loss minimum was struck from the statute. These increases in caps will enhance the financial assistance available for victims of crime, and allow CVCB to assist with more costs associated with crime scene cleanup. This legislation went into effect July 1, 2022 and is applicable to all claims received on or after that date.
