NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**
The program did not experience a significant change in the number of applications received during the reporting period.
2. **The average length of time to process an application for claim eligibility for compensation**
Count days from time of receipt of application to decision. 31

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. For compensation claims, after receipt of a claim, the program sends a claim summary to the prosecutor's office in the state judicial or federal district where the crime occurred, requesting that the office provide pertinent case details and feedback. The examiner reviews the supporting documentation filed with the application, communicates requests and statuses to the claimant, and awaits any further documentation and the report of the prosecutor's office. The examiner makes a recommendation, including any payment recommendations, and a supervisory staff member reviews the recommendation and file documents to conclude the claim. We send a decision to the claimant outlining the decision and the right to appeal . if a claimant agrees with an approval decision, the claimant may request that the payments be processed. If a claimant disagrees with a decision, the claimant may file an appeal with the TN Claims Commission. Any decisions on appealed claims are processed in a manner like the process on an initial claim. Forensic claims are nearly identical except for the role of the prosecutor and right to appeal.
3. **Does your state have a victim satisfaction survey?**
No
4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**
There have not been any issues or trends encountered in the State of Tennessee impacting the program s ability to meet the needs of crime victims.
5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**
Coordination with the FBI liaisons and United States Attorneys Offices is an effective way to reach federal crime victims, including liaisons attendance at trainings we provide to advocates statewide. This training equips them with eligibility and benefit information on the Tennessee Criminal Injuries Compensation Program. The USAOs also are integral to information gathering and provide a prosecutor s feedback on all cases (as part of our program procedures).
6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**
There have not been any notable activities during the reporting period.
7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**
We do not use the administrative funds provision of the grant.
8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**
The statute of limitation for filing a claim was increased from one year to two year effective January 1, 2022 to allow twice as long for a victim to file a claim.
9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**
Ongoing communications within the justice system, particularly recurring meetings with representatives from teh prosecutors offices and advocates statewide, provide continuity and improved awareness of the program. Prosecutors assist in various ways to improve the information we receive. Advocates attend training we provide year-round. Since 2020, all training is provided virtually, and the demand is the same or higher than pre-pandemic norms. Information potential claimants need to file is available on our program website, along with the link to file electronically. We assist claimants regarding how certain items can be obtained to meet the claim requirements. We continue to assist with our state s annual ceremony honoring homicide victims (Tennessee Season to Remember).
10. **Please explain any public outreach efforts to improve awareness of your program.**

We provided training to any victim advocates that wished to participate, and we have offered training via WebEx on a varied schedule during the work week to accommodate advocates who may have other set obligations during the week. The participants included advocates from law enforcement, prosecutor offices, rape crisis centers, domestic violence shelters, child advocacy centers, medical facilities, etc. We also use social media to broaden the audience that we may encounter.

11. **Please list any other outcome measure(s) that are reported to the governor, legislature, or other state entity that have not been reported in this submission. Provide the actual measure(s). The data may be reported separately in your progress report.**

No other outcome measures are reported.

12. **Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.**

We have no comments relative to improvement of the state or federal programs.
