Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. Applications are received M-F via mail or electronically via a webform. The start date is the date that the application is received by the CVC Program. Incoming applications are accepted and triaged by front-line staff with receipt acknowledgment letters and requests for initial documentation sent out to applicants before transfer of the claim to a specialist for an eligibility determination. Law enforcement reports are also requested at this time for review by claims specialists. Once reports are reviewed, claims specialists can make an eligibility determination. This eligibility determination may change at a later date if there is non-cooperation from the applicant or other disqualifying information comes to light.

3. **Does your state have a victim satisfaction survey?**

No

4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**

Wisconsin had a mass violence incident in November of 2021 (Waukesha parade incident), which took a significant amount of CVC staff resources and time. A claims processor was promoted to director in November 2021, causing a large caseload shift to other claims processors. Then in April of 2022 a claims processor resigned, causing another huge caseload shift, and then a claims processor went on a medical LOA for 6 months starting June of 2022. This has caused major delays in claims processing for WI this past year.

5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**

The Wisconsin Crime Victim Compensation Program regularly provides informational trainings to a variety of stakeholder agencies and victim services providers throughout the state, including Federal VW and Crime Response staff and community-based victim service providers that serve tribal communities. Many of the community-based providers receive VOCA or VAWA subgrants and are required to attend trainings about various victim service programs and resources. CVC staff is a component of all of these mandatory trainings.

6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**

Significant efforts continue with the configuration of a new CVC Claims Processing database which has had some delays but will go live in 2023. This will include a portal for applicants to check claim status and submit documentation. We added a .5 LTE position in February 2022 which had been vacant for about 6 months. This position assists with claims intake entry and processing.

7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**

VOCA Administrative funds were used to fund the salaries, fringe, and operational costs of grants staff within the WI DOJ Office of Crime Victim Services. These funds were allocated in a pro-rated manner corresponding to the time carrying out work related to the VOCA grant. These roles act as programmatic grants managers providing technical assistance and grant program oversight and assistance to VOCA subgrantee programs; financial grants specialist managing fiscal reports, desk monitoring, payments, and compliance; training coordinator staff ensuring that subgrantees receive comprehensive information regarding Crime Victim Compensation, Victim Rights, and many other victim service programs and resources throughout the state. VOCA Admin funds also supported the technological needs of OCVS staff via the administration of the Egrants grant management database and providing technological support through our Bureau of Computing Services. It also supports two significant grants to out statewide Sexual Assault Coalition and Domestic Abuse Coalition, who also provide technical assistance to their VOCA subgrantee membership.

8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**

Crime Victim Compensation staff participate in the Office of Crime Victim Services Racial Equity Workgroup. This workgroup explores the disparate impact of existing policies, procedures, forms and documents; challenges biases built into our work; and suggests small, but impactful changes that can be made to address inequities or barriers. Additionally, due to the mass violence event, DOJ AAG assigned to CVC assisted with creating a brief/memorandum regarding the definition of a victim per WI Stats 949.01(6), which helped our program define and identify victims of mass violence incidents who were not the "direct" victims who were hit by the car, but were present at the incident and very much emotionally injured due to the horrible compensable crime they were subjected to (watching loved ones get hit/run over by the offender). This resulted in the WI CVC program to expand much needed assistance to the Waukesha community.

9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**

Crime Victim Compensation staff regularly communicates directly with District Attorney's offices and Victim Witness staff in order to assist victims to coordinate the documentation of their financial losses due to a crime. By sharing information, with the victim's informed consent, CVC staff alleviates some of the stress and burden of documenting losses that would otherwise fall on victims directly. CVC staff also coordinates with VOCA State Administrators to engage in training advocates on the fundamentals of CVC, how to apply, and where to go with questions on a routine basis throughout the year.

10. **Please explain any public outreach efforts to improve awareness of your program.**

Crime Victim Compensation staff conducts multiple trainings for advocates statewide on the fundamentals of CVC, how to apply, and where to go with questions on a routine basis throughout the year. These trainings are well attended and attendee feedback is requested to continually improve outreach efforts. Staff also trains on the fundamentals of CVC at regular Victim Witness conferences and trainings.

11. **Please list any other outcome measure(s) that are reported to the governor, legislature, or other state entity that have not been reported in this submission. Provide the actual measure(s). The data may be reported separately in your progress report.**

Due to the backlog and delay in the length of time it take from application receipt to eligibility determination (105 days), the CVC team has requested an additional position for a CVC claims processor, which will help with the backlog and also help to get funds out.

12. **Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.**

Due to staffing changes and turnover in both OCVS and BBF, we missed applying for an extension of the FY 19 VOCA grant, in which a significant portion of funds was not yet used. Changes have been implemented to ensure going forward we are on top of our VOCA grant spending and deadlines.
